## Settlement Of Copper Strike Off

### Negotiations May Resume Tuesday

Denver, July 2 (AP) — Wage talks resume on a limited scale today as both federal conciliators and union spokesmen expressed doubt a strike of three of the nation's largest copper mining firms would be settled before late next week.

Because few of the properties involved normally employ work shifts on a six-day week, full effect of the strike is not expected to be felt until Tuesday after the long Independence Day weekend.

**SPOKESMEN** for the International Union of Mine, Mill & Smelter Workers (Ind.), whose entire membership of 50,000 to 60,000 workers is poised for a nationwide strike, said full scale negotiations are not to resume until Tuesday.

Here, meanwhile, was the situation at the principal bargaining tables:

1. At Butte, Mont., where negotiations are being conducted with the Anaconda Copper Co., federal conciliator William G. Hosie said talks are in "suspended animation."

**ANACONDA IS** the only one of the nation's "Big Four" copper producers whose workers are not participating in the strike, which began shortly after midnight Thursday. It has 8,600 workers represented by the mine-mill union.

"There definitely will not be any new developments over the weekend," Hosie said. He added that negotiations on a new contract would resume Tuesday.

2. At Salt Lake City, Conciliator S. Lyle Johnson resumed talks with the Kennecott Copper Corp. on local issues only. Prospects for an immediate settlement between the firm and a joint union negotiating committee representing 10,000 Kennecott workers are "very weak," Johnson said.

3. **NEGOTIATIONS** have been suspended at Miami, Ariz., and Douglas, Ariz., where mine-mill employes and the Phelps-Dodge Copper Co. are in wage talks. A union spokesman said Phelps-Dodge "insisted on recessing until local issues at Bisbee (Ariz.) were settled."

"General negotiations will not continue until late next week," he added.

The Arizona negotiations affect mine-mill employes at Bisbee, Douglas and Morenci, Ariz., and at El Paso, Tex.

4. At San Francisco, talks continued late Friday between a joint bargaining council and the American Smelting & Refining Co., which operates plants in the San Francisco Bay area. Maurice E. Travis, mine-mill's west coast regional director, said then that there was no progress to report.

## Peiping Scores Dulles' Action

Tokyo, July 2 (AP)—Peiping radio tonight accused U. S. Secretary of State John Foster Dulles of trying to avoid direct talks with Red China.

"Dulles' press statement last Tuesday shows that the United States does not want direct talks with China to ease tension," the broadcast quoted commentator Chiang Yuan-chun in the official Peoples Daily.

**AT HIS PRESS** conference Tuesday, Dulles said the United States and Soviet Russia are deadlocked behind the scenes in an effort to arrange a Far Eastern conference to follow the Big Four Summit meeting at Geneva beginning July 18. He said Russia insists that Communist China be represented whereas the United States wants Nationalist China included. Both have vowed never to sit together.

Dulles also said that while he did not rule out direct talks with Red China these must not involve dealing with Nationalist China's future behind its back.

Commentator Chiang took off on the question of "substantive matters" which might be discussed at such a meeting.

**HE SAID THESE** "can only mean the Chinese peoples' liberation of Taiwan (Formosa).

"These remarks of Dulles are entirely irrelevant because the liberation of Taiwan is China's internal affair and is none of America's business."

He said Dulles did not explain what America was prepared to talk about, but "examination of of his past statements showed that this must refer to the so-called ceasefire question."

"However, no question exists here, because China is not at war with the United States. If Dulles insists on suggesting discussion of a 'ceasefire' with China on behalf of Chiang Kai-shek, he is putting himself in the position of interfering in China's domestic affairs," declared the commentator.

## Local Traffic Called Heavy; One Mishap

Holiday travellers began their Fourth of July trips to the Catskill Mountain area Friday afternoon as local and area police reported heavy traffic on Ulster county highways and Thruway with only one slight accident in the area.

Throughout the country, however, according to the Associated Press, 32 deaths had been reported in the first 12-hour period since the holiday weekend began 6 p. m. on Friday.

**KINGSTON POLICE** reported this morning that the traffic had reached a minimum in the city, and neither of two accidents on the police blotter was attributed to holiday travel.

Police headquarters at city hall said the heaviest traffic load occurred between 4:30 and 7 p. m., last evening.

As on Memorial Day, local police were agreed that the Thruway had lightened the flow of traffic in the city.

**THE ONE ACCIDENT** outside the city was reported by Highland state police.

A 1938 sedan, operated by John Richard Fennelly, 23, of Big Indian, was heavily damaged when the left rear wheel came off in the hamlet of Esopus and sparks from the dragging axle ignited the fuel tank, according to troopers of the Highland station.

The accident occurred shortly after 1 p. m. as Fennelly was proceeding south on Route 9W about 40 miles per hour. No injuries were reported.

**AREA TROOPERS** and the Ulster county sheriff's office reported a lot of traffic but said it was moving smoothly.

The national safety council has estimated that 380 persons will be killed in highway accidents by Monday midnight. Drownings and violent deaths from miscellaneous causes will swell the toll, the AP said.

In the non-holiday weekend June 17-20, an Associated Press survey showed 342 persons died in traffic accidents, 111 drowned and 62 met violent deaths from miscellaneous causes—a total of 515.

**THE THREE-DAY** Fourth of July holiday last year took an overall toll of 623 lives—348 in traffic, 192 drownings and 83 in other accidents, inciuding four fireworks deaths.

The record overall toll for any Independence Day holiday period was set in the four-day holiday in 1950 when 739 perished.

The national safety council estimates that 40 million automobiles will be on the highways during the holiday period. The period of greatest peril is near the end, when motorists, tired from hours of travel, are returning home on crowded highways.

**FIREWORKS DEATHS** have dwindled sharply in recent years. Various states prohibit their sale. In 1903, fireworks killed 466 persons and injured 3,983.

Deaths by states, traffic,

## Six Girders Are Placed on Bridge

Steel has been moving in place on the superstructure of the Kingston-Rhinecliff Bridge, and six of the heavy girders are now in place spanning six sets of piers, engineers said yesterday.

The steel has been arriving as needed and the Harris Structural Steel Co., of New York, contractor for the super-structure has two more girders and other steel on hand. Others, probably four more, are expected to arrive by next Tuesday or Wednesday.

Steel work, other than the placing of girders, is also now in progress, as work moves along also on all phases of the sub-structure; on both sides of the river and on the piers in the water.

## Timmerman Named CD Deputy Director

Allan L. Hanstein, director of the Ulster Kingston Civil Defence Council today announced the appointment of Major H. Edgar Timmerman of West Shokan as deputy director. He previously held the post of acting deputy director.

Appointments of sector commanders included Ben Sanford of Saugerties; Russell Howard, 83 Smith avenue, this city and Charles F. Kaiser Jr., of Ellenville.

The duties of sector commander will be in addition to other duties already assumed in each case.

*Sees Passage of Reserve Bill*

## Feels Eisenhower Will Get Desired Manpower

Washington, July 2 (AP)—Rep. Vinson (D.-Ga.) predicted today that Congress soon will give President Eisenhower "the kind of (military) reserve program he wants."

Vinson, chairman of the House Armed Services Committee, said in an interview he expects "no trouble" in the Senate for a measure to swell the nation's 700,000-man reserve to a trained force of 2,900,000 by 1960.

**SEN. RUSSELL** (D.-Ga.), chairman of the Senate Armed Services Committee, said a subcommittee soon will begin hearings on the bill.

Breaking a six-week impasse over an antisegregation proposal, the House passed the bill yesterday by voice vote.

In an earlier key vote, Republicans and southern Democrats combined to defeat a new effort by Rep. Powell (D.-N.Y.) to bring about racial integration in the National Guard. The Powell amendment went down on a 156-105 standing vote.

**THE MEASURE** would set up a new six-months training program for teen-age volunteers who would be obligated to serve 7½ years' reserve duty, but would escape the two-year draft.

It also provides that reservists failing to maintain prescribed training standards could be recalled for 45 days' active duty.

Vinson called it a "good strong bill, the kind the President wants."

**THE FIRST ATTEMPT** to get a reserve bill through the House failed on May 18 when Powell won acceptance of an amendment to bar the assignment of reservists to segregated National Guard units. He was supported then by many members who opposed the reserve program for a variety of reasons. The bill then was withdrawn to

## Ceasefire Ruled Out By Chiang

### Says Reds Must Leave Territory

Taipei, Formosa, July 2 (AP)—President Chiang Kai-shek has indicated he never will agree to a ceasefire with the Chinese Commnists until they "disgorge their spoils and withdraw from the territory which they have stolen by aggression."

In an interview with a Filipino correspondent, released today by the official Central News Agency, Chiang made the specific point that the offshore islands cannot be considered separately from Formosa and the Pescadores and "must be defended." Formosa and the Pescadores are covered by the U. S.-Nationalist Chinese Mutual Defense Treaty. The offshore islands of Quemoy and Matsu are not.

**CHIANG SAID** the Nationalists never would allow the Reds to keep the Chinese mainland as the "fruit of aggression" and would never agree to a ceasefire in Formosa Strait. He said a ceasefire policy recognizes the fruits of aggression and rewards it.

"The right time for a genuine ceasefire with the Communists will be when they disgorge their spoils and withdraw from the territory which they have stolen by aggression," he said.

Chiang said the Chinese Communists are "no longer Chinese," and called them "tools of Soviet aggression."

**"THE NATIONALIST** government cannot live together with them on the mainland," he declared.

Chiang restated his standing assertion that in a Nationalist invasion "the people, and even the Communist soldiers, will rally around their banner and surely bring the Communist regime to its end." He said he wouldn't need ground force assistance in an invasion.

### Stadium Fence Damaged

Police received a report at 10:40 p. m., Friday that a gang of boys were destroying a fence at Dietz Stadium. Officers William Slover and Harold DeGraff were sent to investigate and reported the boys gone on arrival with a large section of the fence knocked down. A second report to police headquarters said there were seven boys and four of them were walking up North Front street. The officers searched the neighborhood, but reported no trace of the boys.

## Building Permits Higher Than May

The Department of Buildings issued 69 permits during June at an estimated cost of $267,022, according to a report issued today by S. Burrell Schwarzwaelder, superintendent of buildings.

This was $93,508 over last month when 48 permits were issued at an estimated cost of $173,524.

**OF THE TOTAL** issued, 18 were for new buildings estimated at $194,150, 15 for oil burners at $9,364.

Other permits issued included eight for garages at $5,450, seven for additions at $12,828, four for alterations at $18,500, four for oil and gas tanks at $20,125, three for gas heat at $2,535, three for fire escapes at $1,320, three for demolitions, two for repairs at $1,500, one for poster panel at $250, and one for excavation and foundation at $1,000.

**DEATH ON THE ROAD**—Onlookers stand at the scene of a crash betwen a trailer-truck and a private automobile in Milwaukee. The car was hit broadsides by the truck and hurled into a building on Highway 41. The Rev. Hugh Deeny, a Catholic priest was killed, and Edward Lee was critically injured. Both were occupants of the car. The National Safety Council warns that there may be 380 traffic deaths by midnight July 4. (NEA Telephoto)

## *Woman, 33, Is Committed After Drowning Daughters*

Bridgeport, Conn., July 2 (AP)—A woman who calmly told police she drowned her two young daughters in a bathtub was committed early today to a mental hospital.

Dr. Nathan Friedman signed the emergency commitment which sent Mrs. Michael Vatart, 33, to the Fairfield State Hospital in Newtown. She had spent two hours in Bridgeport Hospital undergoing treatment for superficial, self-inflicted razor blade cuts on her wrists and throat.

When Vatart, 30, a bus company mechanic who has a spare time job in a gas station, came home from work shortly after midnight, he found his wife bleeding and wandering about the house in a daze.

Their two daughters, Marilyn, 3½, and Linda, four months, lay dead on a bed.

Police Capt. John J. Carroll, who talked with Mrs. Vatart at the hospital, said she told him she drowned the children because she was worried about family debts and about a "disfigurement" on the neck of the younger child.

Asked if it was apparent to a layman that Mrs. Vatart was mentally abnormal, Capt. Carroll replied:

"Yes, I would say so. Nobody

# Big Steel Hikes Price After Wage Agreement

**HEARTY BOOSTERS**—David J. McDonald, president of the CIO United Steelworkers, strikes a jubilant pose at Pittsburgh after the policy making committee of the union voted to accept a 15-cents-an-hour increase less than 12 hours after their strike against United States Steel began. (NEA Telephoto)

## Consumers Will Feel $7.50Boost

### Taxes, Projects Cited for Raise

Pittsburgh, July 2 (AP)—U. S. Steel Corp., which granted an average 15 cent an hour wage boost to its employes to break the back of a nationwide steel strike, is boosting prices about $7.50 a ton.

Big Steel's action came shortly after it ended the shortest walkout in the industry's history in a compromise agreement with the CIO United Steelworkers.

**WITHIN A FEW HOURS** after the 12-hour strike ended yesterday all of the industry's "Big Six" had followed the leader in agreeing to the pay boost. They are Bethlehem Steel Corp., Republic, Jones & Laughlin, Youngstown Sheet & Tube and Inland Steel.

The companies indicated they, too, will follow Big Steel in marking up prices.

As a consequence, consumers soon will pay more for the countless products made from steel.

**CLIFFORD F. HOOD**, U. S. Steel president, said the 5.8 per cent hike—which will put a $132.50 price tag on a ton of basic carbon steel — wasn't entirely the result of the wage increase.

Hood said other factors are involved, such as increased taxes and new construction.

While jubilant steelworkers were returning to the mills union officials stood by to get more contract signatures. They indicated they would have no trouble with any of the 96 companies in the industry which employ 600,000 USW duespayers.

**PITTSBURGH STEEL** was among the companies which agreed to the new pact last night.

There was an air of urgency to sign. None of the companies seemed to want a moment wasted in their efforts to get their mills glowing again. Profits have been high this year, orders are rolling in, and almost everyone predicts record production through at least the remainder of 1955.

That was one reason, perhaps, why the strike was the shortest in the industry's history.

**AS THE MIDNIGHT** Thursday strike deadline approached, USW President David J. McDonald and Vice President John A. Stephens of U. S. Steel were so close to agreement that McDonald declared the dispute was almost settled. As negotiations re-

*O'Reilly New Vice-President*

## Herzog Reelected School Board Head

Robert H. Herzog was reelected president of the Kingston Board of Education Friday afternoon at the annual meeting. Mr. Herzog's name was placed before the meeting by Louis G. Bruhn and was the unanimous choice of the board.

Chester A. Baltz, who has served as vice-president for the past two years, declined nomination to succeed himself and placed the name of Robert B. O'Reilly before the meeting. Mr. O'Reilly was the unanimous choice of the board.

Superintendent of Schools Earl Soper, who assumed office July 1, was attending his first meeting and introduced Robert Macdonald who also became executive secretary to the board. Mr. Macdonald will have charge of the business affairs of the office of superintendent, permitting the superintendent to devote more of his time to supervision of schools.

David Kline, optometrist, and a former school teacher in the Kingston school system, attended his first meeting as a member of the board and Louis G. Bruhn, reappointed to the board by Mayor Frederick H. Stang, was also present.

**SINCE THIS WAS** the only business which may be transacted at the annual meeting under the rules of the board, the annual meeting was adjourned and the board then went into special session.

The appointment of Joan B. Driggs as math teacher was approved. The starting salary is $3,650 and her appointment becomes effective as of Sept. 1.

**ALSO APPOINTED** was Michael Starrs, English teacher, at a starting salary of $4,000.

Both appointments were for the usual three year probationary period.

Superintendent Soper reported there was still five vacancies in the teaching staff to be filled before school reopens and also three vacancies on the non-teaching staff of the school system.

## JCC Elects Kline As New President

David Kline, of 10 Len Court, local optometrist, was elected president of the Jewish Community Center at its recent annual meeting. He was also appointed to the Board of Education last Thursday by Mayor Frederick H. Stang.

In his speech of acceptance, Kline set three goals for the center's coming year, a doubling of the membership, increased interest in programs on an adult level, and better facilities.

**"WHAT WITH** the fine calibre of the new Board of Directors, people who have shown their leadership ability in the past and have an interest in communal affairs, this should be a record year for our Jewish Center," Kline said, "and I am looking forward to the coming year as a very fruitful and important one in the center's history, and am glad of the opportunity to share in its achievements."

He expressed great confidence in the ability of the new director, Sol Silverman, who comes to Kingston with excellent experiences and the highest of references. He thanked Miss Sadie Lutzin, acting director of the Center for the past three months for showing what can be done at the Center with the proper leadership.

The other officers elected were Sidney Halpern, first vice president; Mrs. Harry Spiegal, second

### Railroad Advice

A representative of the Railroad Retirement Board will be at the New York Central Freight Station, 545 Broadway, ground floor, between 10 a. m., and 4 p. m., on Wednesday, July 13 for the purpose of assisting railroad workers, wives, widows or survivors in retirement and survivor problems. He will answer all inquiries which may have a connection with the Railroad Retirement and Railroad Unemployment Insurance Acts.

## *Two Persons Are Injured In Accident*

A two-car accident at Hasbrouck avenue and East Chester street was reported to police at 6:50 p. m., Friday.

The cars involved were a 1953 sedan, owned by Laura Levy, 247 Oaktree drive, Levittown, Pa., operated by Henry H. Levy, same address, and a 1948 sedan, owned and operated by Francis X. Shanley, of Highland drive, Florida, N. Y.

**ACCORDING** to the police report the Levy car was traveling north on East Chester street, and the Shanley vehicle east on Hasbrouck avenue.

Laura Levy, passenger, received a bump on the head, police said, while Eleanore Shanley a passenger in the second car, was removed by Schultz Ambulance to Benedictine Hospital and treated for lacerations of the right arm.

**THE LEVY CAR** was damaged on the entire front end, the police report said, while the Shanley car was damaged on the entire left side and right rear. Both cars were towed away.

Police also reported property damage to a New York Telephone Company pole, and the front lawn of Michael Qualtere, 323 Hasbrouck avenue, as a result of the accident.

Officers Meyer Levy and Harold DeGraff investigated.

*Reduction Drive Is Doubted*

## Would Cut Foreign Aid Spending 50 Per Cent

Washington, July 2 (AP)—Sen. Byrd (D.-Va.) called today for cutting foreign aid spending in half. But Sen. Hayden (D.-Ariz.) said he doesn't think Congress has "its knife out" for the program.

Byrd, chairman of the Senate Finance Committee, said in an interview he thinks a 50 per cent reduction could be made in proposed foreign aid spending of somewhat under 3½ billion dollars in the bookkeeping year which began yesterday.

**THE VIRGINIAN** said it's "up to the appropriation committees" to do the cutting. But Hayden, chairman of the Senate Appropriations Committee, said he doesn't believe there is any drive for material cuts in foreign aid funds.

Hayden said "I know I haven't got my knife out for the program and I don't know anybody on the committee who has."

Byrd said "the time has come when we ought to cut out all economic aid."

"As the program stands," he added, "it seems to me that expenditures are being about equally divided between economic and military aid."

**BRYD'S REMARKS**—In which he mentioned a carryover of about 10 billions in unspent overseas assistance funds — were prompted by the fact that Congress virtually has finished work on legislation to put a ceiling on foreign aid appropriations for this year. The money must be voted in later legislation.

The House on Thursday passed a bill to authorize a $3,285,800,000 foreign aid program for this fiscal year—with $1,133,000,000 earmarked for military assistance and $2,152,800,000 allocated for economic help to U. S. allies, in Asia.

The Senate earlier had approved a total 139 million dollars bigger than the House version. The differing bills now must be compromised.

President Eisenhower originally asked for 3½ billion dollars in foreign aid appropriations for this year. But yesterday he revised this figure downward to $3,266,641,750.

## *Times Story on U.S. Jets Cleared by Security Group*

Washington, July 2 (AP)—Sen. Eastland (D.-Miss.) says he accepts The New York Times' word that no security violation was involved in its publication of a story during the Korean war that the U. S. Air Force was using F86 Sabre jets.

Eastland, chairman of the Senate Internal Security subcommittee, said late yesterday the group never has made "any such charge," but that "I am glad to make this statement in the interest of complete fairness."

The story was written in 1950 by Charles Grutzner, a Times reporter, who acknowledged at a subcommittee public hearing on Thursday that he had been a Communist party member from 1937 to 1940.

Grutzner was among a dozen former employes of the now-defunct Brooklyn Eagle who were named by CBS newsman Winston M. Burdett as people he knew as fellow Communists in 1937-1940. Grutzner testified he became fed up with communism and quit just before joining the Times staff.

Eastland indicated in his questioning of Grutzner he felt that the story disclosing U. S. Sabre jet planes were in action in Korea had been helpful to the Com-

**THE THREE-DAY** Fourth of July holiday last year took an overall toll of 623 lives—348 in traffic, 192 drownings and 83 in other accidents, inciuding four fireworks deaths.

The record overall toll for any Independence Day holiday period was set in the four-day holiday in 1950 when 739 perished.

The national safety council estimates that 40 million automobiles will be on the highways during the holiday period. The period of greatest peril is near the end, when motorists, tired from hours of travel, are returning home on crowded highways.

**FIREWORKS DEATHS** have dwindled sharply in recent years. Various states prohibit their sale. In 1903, fireworks killed 466 persons and injured 3,983.

## Six Girders Are Placed on Bridge

Steel has been moving in place on the superstructure of the Kingston-Rhinecliff Bridge, and six of the heavy girders are now in place spanning six sets of piers, engineers said yesterday.

The steel has been arriving as needed and the Harris Structural Steel Co., of New York, contractor for the super-structure has two more girders and other steel on hand. Others, probably four more, are expected to arrive by next Tuesday or Wednesday.

Steel work, other than the placing of girders, is also now in progress, as work moves along also on all phases of the sub-structure; on both sides of the river and on the piers in the water.

## Timmerman Named CD Deputy Director

Allan L. Hanstein, director of the Ulster Kingston Civil Defence Council today announced the appointment of Major H. Edgar Timmerman of West Shokan as deputy director. He previously held the post of acting deputy director.

Appointments of sector commanders included Ben Sanford of Saugerties; Russell Howard, 83 Smith avenue, this city and Charles F. Kaiser Jr., of Ellenville.

The duties of sector commander will be in addition to other duties already assumed in each case.

*Sees Passage of Reserve Bill*

## Feels Eisenhower Will Get Desired Manpower

Washington, July 2 (AP)—Rep. Vinson (D.-Ga.) predicted today that Congress soon will give President Eisenhower "the kind of (military) reserve program he wants."

Vinson, chairman of the House Armed Services Committee, said in an interview he expects "no trouble" in the Senate for a measure to swell the nation's 700,000-man reserve to a trained force of 2,900,000 by 1960.

**SEN. RUSSELL** (D.-Ga.), chairman of the Senate Armed Services Committee, said a subcommittee soon will begin hearings on the bill.

Breaking a six-week impasse over an antisegregation proposal, the House passed the bill yesterday by voice vote.

In an earlier key vote, Republicans and southern Democrats combined to defeat a new effort by Rep. Powell (D.-N.Y.) to bring about racial integration in the National Guard. The Powell amendment went down on a 156-105 standing vote.

**THE MEASURE** would set up a new six-months training program for teen-age volunteers who would be obligated to serve 7½ years' reserve duty, but would escape the two-year draft.

It also provides that reservists failing to maintain prescribed training standards could be recalled for 45 days' active duty.

Vinson called it a "good strong bill, the kind the President wants."

**THE FIRST ATTEMPT** to get a reserve bill through the House failed on May 18 when Powell won acceptance of an amendment to bar the assignment of reservists to segregated National Guard units. He was supported then by many members who opposed the reserve program for a variety of reasons. The bill then was withdrawn to *(Continued on Page 3, Col. 6)*

## *Woman, 33, Is Committed After Drowning Daughters*

Bridgeport, Conn., July 2 (AP)—A woman who calmly told police she drowned her two young daughters in a bathtub was committed early today to a mental hospital.

Dr. Nathan Friedman signed the emergency commitment which sent Mrs. Michael Vatart, 33, to the Fairfield State Hospital in Newtown. She had spent two hours in Bridgeport Hospital undergoing treatment for superficial, self-inflicted razor blade cuts on her wrists and throat.

When Vatart, 30, a bus company mechanic who has a spare time job in a gas station, came home from work shortly after midnight, he found his wife bleeding and wandering about the house in a daze.

Their two daughters, Marilyn, 3½, and Linda, four months, lay dead on a bed.

Police Capt. John J. Carroll, who talked with Mrs. Vatart at the hospital, said she told him she drowned the children because she was worried about family debts and about a "disfigurement" on the neck of the younger child.

Asked if it was apparent to a layman that Mrs. Vatart was mentally abnormal, Capt. Carroll replied:

"Yes, I would say so. Nobody *(Continued on Page 3, Col. 8)*

# Big Steel Hikes Price After Wage Agreement

**HEARTY BOOSTERS**—David J. McDonald, president of the CIO United Steelworkers, strikes a jubilant pose at Pittsburgh after the policy making committee of the union voted to accept a 15-cents-an-hour increase less than 12 hours after their strike against United States Steel began. (NEA Telephoto)

## Consumers Will Feel $7.50Boost

### Taxes, Projects Cited for Raise

Pittsburgh, July 2 (AP)—U. S. Steel Corp., which granted an average 15 cent an hour wage boost to its employes to break the back of a nationwide steel strike, is boosting prices about $7.50 a ton.

Big Steel's action came shortly after it ended the shortest walkout in the industry's history in a compromise agreement with the CIO United Steelworkers.

**WITHIN A FEW HOURS** after the 12-hour strike ended yesterday all of the industry's "Big Six" had followed the leader in agreeing to the pay boost. They are Bethlehem Steel Corp., Republic, Jones & Laughlin, Youngstown Sheet & Tube and Inland Steel.

The companies indicated they, too, will follow Big Steel in marking up prices.

As a consequence, consumers soon will pay more for the countless products made from steel.

**CLIFFORD F. HOOD**, U. S. Steel president, said the 5.8 per cent hike—which will put a $132.50 price tag on a ton of basic carbon steel—wasn't entirely the result of the wage increase.

Hood said other factors are involved, such as increased taxes and new construction.

While jubilant steelworkers were returning to the mills union officials stood by to get more contract signatures. They indicated they would have no trouble with any of the 96 companies in the industry which employ 600,000 USW duespayers.

**PITTSBURGH STEEL** was among the companies which agreed to the new pact last night.

There was an air of urgency to sign. None of the companies seemed to want a moment wasted in their efforts to get their mills glowing again. Profits have been high this year, orders are rolling in, and almost everyone predicts record production through at least the remainder of 1955.

That was one reason, perhaps, why the strike was the shortest in the industry's history.

**AS THE MIDNIGHT** Thursday strike deadline approached, USW President David J. McDonald and Vice President John A. Stephens of U. S. Steel were so close to agreement that McDonald declared the dispute was almost settled. As negotiations re- *(Continued on Page 3, Col. 4)*

*O'Reilly New Vice-President*

## Herzog Reelected School Board Head

Robert H. Herzog was reelected president of the Kingston Board of Education Friday afternoon at the annual meeting. Mr. Herzog's name was placed before the meeting by Louis G. Bruhn and was the unanimous choice of the board.

Chester A. Baltz, who has served as vice-president for the past two years, declined nomination to succeed himself and placed the name of Robert B. O'Reilly before the meeting. Mr. O'Reilly was the unanimous choice of the board.

Superintendent of Schools Earl Soper, who assumed office July 1, was attending his first meeting and introduced Robert Macdonald who also became executive secretary to the board. Mr. Macdonald will have charge of the business affairs of the office of superintendent, permitting the superintendent to devote more of his time to supervision of schools.

David Kline, optometrist, and a former school teacher in the Kingston school system, attended his first meeting as a member of the board and Louis G. Bruhn, reappointed to the board by Mayor Frederick H. Stang, was also present.

**SINCE THIS WAS** the only business which may be transacted at the annual meeting under the rules of the board, the annual meeting was adjourned and the board then went into special session.

The appointment of Joan B. Driggs as math teacher was approved. The starting salary is $3,650 and her appointment becomes effective as of Sept. 1.

**ALSO APPOINTED** was Michael Starrs, English teacher, at a starting salary of $4,000.

Both appointments were for the usual three year probationary period.

Superintendent Soper reported there was still five vacancies in the teaching staff to be filled before school reopens and also three vacancies on the non-teaching staff of the school system.

## JCC Elects Kline As New President

David Kline, of 10 Len Court, local optometrist, was elected president of the Jewish Community Center at its recent annual meeting. He was also appointed to the Board of Education last Thursday by Mayor Frederick H. Stang.

In his speech of acceptance, Kline set three goals for the center's coming year, a doubling of the membership, increased interest in programs on an adult level, and better facilities.

**"WHAT WITH** the fine calibre of the new Board of Directors, people who have shown their leadership ability in the past and have an interest in communal affairs, this should be a record year for our Jewish Center," Kline said, "and I am looking forward to the coming year as a very fruitful and important one in the center's history, and am glad of the opportunity to share in its achievements."

He expressed great confidence in the ability of the new director, Sol Silverman, who comes to Kingston with excellent experiences and the highest of references. He thanked Miss Sadie Lutzin, acting director of the Center for the past three months for showing what can be done at the Center with the proper leadership.

The other officers elected were Sidney Halpern, first vice president; Mrs. Harry Spiegal, second *(Continued on Page 3, Col. 5)*

### Railroad Advice

A representative of the Railroad Retirement Board will be at the New York Central Freight Station, 545 Broadway, ground floor, between 10 a. m., and 4 p. m., on Wednesday, July 13 for the purpose of assisting railroad workers, wives, widows or survivors in retirement and survivor problems. He will answer all inquiries which may have a connection with the Railroad Retirement and Railroad Unemployment Insurance Acts.

## *Two Persons Are Injured In Accident*

A two-car accident at Hasbrouck avenue and East Chester street was reported to police at 6:50 p. m., Friday.

The cars involved were a 1953 sedan, owned by Laura Levy, 247 Oaktree drive, Levittown, Pa., operated by Henry H. Levy, same address, and a 1948 sedan, owned and operated by Francis X. Shanley, of Highland drive, Florida, N. Y.

**ACCORDING** to the police report the Levy car was traveling north on East Chester street, and the Shanley vehicle east on Hasbrouck avenue.

Laura Levy, passenger, received a bump on the head, police said, while Eleanore Shanley a passenger in the second car, was removed by Schultz Ambulance to Benedictine Hospital and treated for lacerations of the right arm.

**THE LEVY CAR** was damaged on the entire front end, the police report said, while the Shanley car was damaged on the entire left side and right rear. Both cars were towed away.

Police also reported property damage to a New York Telephone Company pole, and the front lawn of Michael Qualtere, 323 Hasbrouck avenue, as a result of the accident.

Officers Meyer Levy and Harold DeGraff investigated.

*Reduction Drive Is Doubted*

## Would Cut Foreign Aid Spending 50 Per Cent

Washington, July 2 (AP)—Sen. Byrd (D.-Va.) called today for cutting foreign aid spending in half. But Sen. Hayden (D.-Ariz.) said he doesn't think Congress has "its knife out" for the program.

Byrd, chairman of the Senate Finance Committee, said in an interview he thinks a 50 per cent reduction could be made in proposed foreign aid spending of somewhat under 3½ billion dollars in the bookkeeping year which began yesterday.

**THE VIRGINIAN** said it's "up to the appropriation committees" to do the cutting. But Hayden, chairman of the Senate Appropriations Committee, said he doesn't believe there is any drive for material cuts in foreign aid funds.

Hayden said "I know I haven't got my knife out for the program and I don't know anybody on the committee who has."

Byrd said "the time has come when we ought to cut out all economic aid."

"As the program stands," he added, "it seems to me that expenditures are being about equally divided between economic and military aid."

**BRYD'S REMARKS**—In which he mentioned a carryover of about 10 billions in unspent overseas assistance funds — were prompted by the fact that Congress virtually has finished work on legislation to put a ceiling on foreign aid appropriations for this year. The money must be voted in later legislation.

The House on Thursday passed a bill to authorize a $3,285,800,000 foreign aid program for this fiscal year—with $1,133,000,000 earmarked for military assistance and $2,152,800,000 allocated for economic help to U. S. allies, in Asia.

The Senate earlier had approved a total 139 million dollars bigger than the House version. The differing bills now must be compromised.

President Eisenhower originally asked for 3½ billion dollars in foreign aid appropriations for this year. But yesterday he revised this figure downward to $3,266,641,750.

**DEATH ON THE ROAD**—Onlookers stand at the scene of a crash betwen a trailer-truck and a private automobile in Milwaukee. The car was hit broadsides by the truck and hurled into a building on Highway 41. The Rev. Hugh Deeny, a Catholic priest was killed, and Edward Lee was critically injured. Both were occupants of the car. The National Safety Council warns that there may be 380 traffic deaths by midnight July 4. (NEA Telephoto)

## *Times Story on U.S. Jets Cleared by Security Group*

Washington, July 2 (AP)—Sen. Eastland (D.-Miss.) says he accepts The New York Times' word that no security violation was involved in its publication of a story during the Korean war that the U. S. Air Force was using F86 Sabre jets.

Eastland, chairman of the Senate Internal Security subcommittee, said late yesterday the group never has made "any such charge," but that "I am glad to make this statement in the interest of complete fairness."

The story was written in 1950 by Charles Grutzner, a Times reporter, who acknowledged at a subcommittee public hearing on Thursday that he had been a Communist party member from 1937 to 1940.

Grutzner was among a dozen former employes of the now-defunct Brooklyn Eagle who were named by CBS newsman Winston M. Burdett as people he knew as fellow Communists in 1937-1940. Grutzner testified he became fed up with communism and quit just before joining the Times staff.

Eastland indicated in his questioning of Grutzner he felt that the story disclosing U. S. Sabre jet planes were in action in Korea had been helpful to the Com- *(Continued on Page 3, Col. 6)*

## Big Steel . . .

sumed yesterday it took just a short time to get the final details ironed out.

McDonald had asked for a "substantial" wage boost for the men who averaged $2.33 an hour. He flatly turned down a 10-cent an hour wage hike.

**AS THE NEGOTIATIONS** progressed toward the strike deadline the union chief was reported to have submitted a package proposal amounting to 31 cents an hour, which included a 16-cent-an hour wage boost.

The union, winding up with an increase of slightly more than 15 cents an hour, got a contract from U. S. Steel which provides a flat 11½ cent an hour increase with the highest paid men to get a 27 cent an hour hike.

**THE CONTRACTS** with other companies are similar.

There is a half cent an hour spread between 32 job classifications and the average hourly earnings are increased from $2.33 to $2.48½ an hour.

Under the new contract the lowest paid hourly workers will get $1.68½ an hour. The old rate was $1.57. The highest paid workers — and there are comparatively few in this classification—go from $3.27½ an hour to $3.54½.

**A TWO-YEAR** contract which runs until June 30, 1956, provided that McDonald could bargain only on wages. He couldn't bring up the layoff pay plan which was the crux of recent negotiations between the CIO United Auto Workers and the motor industry.

In contracts with General Motors Corp. and Ford Motor Co., the auto workers got a package increase totalling 20 cents an hour. Six cents an hour was in wage increases for hourly workers with skilled workers receiving an additional eight cents an hour.

**SOME WORKERS** rushed back to the mills within an hour after big steel announced it had signed the contract.

It usually takes 48 hours, from the time furnaces are heated, to get them in full production.

Despite the short length of the walkout it will cost the steel companies several million dollars because they had to gradually cool off furnaces and slow production as the strike deadline approached.

In Washington, Secretary of Labor Mitchell hailed the strike ending agreement as "one more indication of the skill and the maturity of American labor and management."

## Bees Are Active In City Friday

Bees were buzzing around the city in apparent regimental strength Friday.

A police blotter notation at 5:30 p. m., reported Officer Bernard Fowler was bitten by a bee while doing traffic duty on North Front street. He was treated by Dr. Glenn Van Gaasbeek and returned to his post.

**POLICE** contacted C. Edward Rowe, of Rowe's Apiaries, 342 Clifton avenue, relative to a nest of bees in the old Sam Hull Store on North Front street which had been reported to headquarters at 6:40.

A report from 161 Tremper avenue at 8:25 p. m., said a nest of bees in a building back of that address were dangerous to children playing in the neighborhood.

The owner of the building was notified and Mr. Rowe was contacted again for assistance.

## Air Force Needs Special Skills

All veterans of Ulster county area, regardless of former military affiliation, who have been out of the service since July 1951 and who possess a skill needed by the Air Force can now re-enlist with an attractive grade adjustment, it was announced today by T/Sgt. John Norton of the local Air Force Recruiting Station, located at 259 Fair street.

The re-enlistment program is part of a new policy designed by the Air Force to benefit the veteran and also insure the procurement of the much needed prior service technician. In addition the policy allows veterans with special qualifications a choice of base assignment or overseas theater where he would like to serve.

**VETERANS** reenlisting with a skill surplus to present needs will be offered the opportunity to train in a specialty of their choice which is currently needed.

Sgt. Norton said, "This program revises our reenlistment policies completely and all veterans should be aware of the many new benefits now available under the policy provisions."

Complete details of the program can be obtained by calling at the Recruiting Station located at 259 Fair street.

## Reports Wallet Lost

Thomas Wisneski, of 42 Ravine street, notified police at 2:35 p. m., Friday, that he lost a tan, zippered wallet somewhere in the vicinity of Andrew street about 1:35 p. m., yesterday. Wisneski said the wallet contained about $15 in bills and a small amount of change.

## Reports Car Struck

Austin Boss, of 36 Coffee place, owner of a 1954 sedan reported to police at 9:51 p. m., Friday that his car had hit a Ford sedan parked at the curb in front of 50 Hurley avenue, and couldn't locate the owner of the vehicle. Boss told police that his car had a damaged right front fender.

## Cancel Bazaar

## Hobby May Quit U. S. Post Soon

Washington, July 2 (AP) — Rumors that Secretary of Welfare Oveta Culp Hobby is going to resign soon have arisen again.

An administration official said last night he understands she will resign in "a week or so, maybe sooner."

Another official said there certainly would be no action taken until after the Fourth of July weekend.

President Eisenhower has said Mrs. Hobby told him some time ago she might have to leave for personal reasons. Her husband William P. Hobby, publisher of the Houston (Tex.) Post, has been ill with arthritis.

**MRS. HOBBY COULD** not be reached for comment on the latest report. To previous ones she has said "no comment."

Her associates said she was reluctant to leave because she has been working on a new information setup for her department.

She has been criticized by some members of Congress for her department's handling of the Salk polio vaccine, but Eisenhower gave her a vote of confidence.

Marion B. Folsom, undersecretary of the Treasury, has been mentioned as "virtually certain" to be Mrs. Hobby's successor.

## JCC Elects Kline

## Times Story

munists, but the newsman and the Times said the Pentagon had cleared it for publication.

Eastland's statement yesterday said the subcommittee has been informed by the Defense Department that it is "unable as yet to state from its own records" whether Grutzner's story was cleared for publication at the Pentagon.

However, Eastland said, the New York Times has stated publicly its records indicate that Austin Stevens of its Washington staff obtained clearance for the story from Jack Shea, then a civilian member of the air force press desk.

The Times, in a dispatch from its Washington bureau, said the late Gen. Hoyt S. Vandenberg, then air force chief of staff, had been identified as the Pentagon official who authorized publication. The Times said Shea recalled the chief of air force information felt the clearance should come from the highest level.

"I have no reason to doubt the truth of (the) statement by the New York Times," Eastland said, "and on this basis it would appear that the Times did nothing to violate security."

"Of course," he added, "the subcommittee never has made any such charge; but I am glad to make this statement in the interest of complete fairness."

## Feels Eisenhower

save it from possible defeat.

Eisenhower said Powell's amendment was out of place in legislation of this sort. He appealed for popular support in his campaign for legislation to build a stronger reserve he said was vital to national security.

Finally, a slightly revised bill was sent back to the House. It sidestepped the segregation issue.

**POWELL, TURNING** down a personal plea from the President, offered a new amendment yesterday to deny draft exemption to National Guard volunteers if they joined segregated units. It was beaten.

The bill passed after the House turned back by a 161-52 standing vote a move by Rep. Nelson (R-Me.) to send the bill back to committee for further study.

Rep. Bow (R-Ohio) withdrew his amendment to bar assignment of American troops to 15 allied nations holding treaty-given jurisdiction over American servicemen involved in criminal cases. Bow said he had been assured the House Foreign Affairs Committee would investigate the situation.

## Collections Day Late

There will be no collection of ashes and rubbish on Monday, July 4, in observance of the holiday. Collections will be one day late next week.

## No Break Looms In Capital Strike

Washington, July 2 (AP)—The weekend brought relief today to Washington's gigantic traffic crush headache caused by a public transit strike.

The strike started yesterday, and all signs pointed to no breaks until Tuesday at the earliest, after the Fourth of July holiday.

**FEDERAL MEDIATORS,** however, were meeting again today with representatives of the Capital Transit Co. and of AFL streetcar and bus workers who want wage increases and some fringe benefits.

Congress planned hearings next week on the problem.

The strike took away bus and streetcar service for an estimated 400,000 customers. As a result, what police said was Washington's worst traffic crush in history clogged the city in the morning. Cars inched bumper to bumper along downtown streets. One driver was working a crossword puzzle as he edged along. Police stood at every downtown section.

## Peron Aide Quits

Buenos Aires, Argentina, July 2 (AP)—Eduardo Vuletich has resigned as secretary general of the Argentine General Confederation of Labor (CGT) because of ill health, the CGT governing board announced last night. Hector De Pietro, formerly second in command, has been elected to succeed him, the announcement said. Vuletich was among the most outspoken supporters of President Juan D. Peron during the eight months of conflict between the government and the Roman Catholic Church in Argentina.

**Thomas Joseph Murphy**

Funeral services for Thomas Joseph Murphy, secretary of Chief Scout Executive Dr. A. Schuck, were held Friday afternoon from the W. N. Conner Funeral Home, Inc., 296 Fair street. Mr. Murphy died Monday at Middlesex General Hospital, New Brunswick, N. J. A native of Hoboken, he had resided at North Brunswick Gardens, Thomas road, New Brunswick, N. J., since Boy Scout Headquarters had been moved there from New York city about a year ago. During the time the body reposed at the Quackenboss Funeral Home, 156 Levingston avenue, New Brunswick, N. J., there was a steady procession of friends and associates who came to pay their respects. Thursday at 8 p. m. the Boy Scouts of America held the Scout service, conducted by Dr. Schuck, who had named Mr. Murphy secretary in 1948. Funeral services Friday were conducted by the Rev. Ernest G. Reith of the First Methodist Church of Flushing. The services were largely attended by relatives and friends and associates in the Boy Scout work. There was a profusion of flowers entirely banking the funeral chapel. Honorary and active bearers, all from Scout Headquarters in New Brunswick, were Dr. Harold Pote, Leslie Straton, Charles Wendling, Edward Belason, Samuel Waymer, James McCluskey, Gus Kenz and Gus Mueller. Burial was in Montrepose Cemetery.

## Air Force Needs Special Skills

All veterans of Ulster county area, regardless of former military affiliation, who have been out of the service since July 1951 and who possess a skill needed by the Air Force can now re-enlist with an attractive grade adjustment, it was announced today by T/Sgt. John Norton of the local Air Force Recruiting Station, located at 259 Fair street.

The re-enlistment program is part of a new policy designed by the Air Force to benefit the veteran and also insure the procurement of the much needed prior service technician. In addition the policy allows veterans with special qualifications a choice of base assignment or overseas theater where he would like to serve.

**VETERANS** reenlisting with a skill surplus to present needs will be offered the opportunity to train in a specialty of their choice which is currently needed.

Sgt. Norton said, "This program revises our reenlistment policies completely and all veterans should be aware of the many new benefits now available under the policy provisions."

Complete details of the program can be obtained by calling at the Recruiting Station located at 259 Fair street.

### Reports Wallet Lost

Thomas Wisneski, of 42 Ravine street, notified police at 2:35 p. m., Friday, that he lost a tan, zippered wallet somewhere in the vicinity of Andrew street about 1:35 p. m., yesterday. Wisneski said the wallet contained about $15 in bills and a small amount of change.

### Reports Car Struck

Austin Boss, of 36 Coffee place, owner of a 1954 sedan reported to police at 9:51 p. m., Friday that his car had hit a Ford sedan parked at the curb in front of 50 Hurley avenue, and couldn't locate the owner of the vehicle. Boss told police that his car had a damaged right front fender.

### Cancel Bazaar

The bazaar planned by the Ladies' Aid of the Cottekill Reformed Church has been postponed indefinitely, according to an announcement by Alice T. Upright, secretary.

## Big Steel . . .

sumed yesterday it took just a short time to get the final details ironed out.

McDonald had asked for a "substantial" wage boost for the men who averaged $2.33 an hour. He flatly turned down a 10-cent an hour wage hike.

**AS THE NEGOTIATIONS** progressed toward the strike deadline the union chief was reported to have submitted a package proposal amounting to 31 cents an hour, which included a 16-cent-an hour wage boost.

The union, winding up with an increase of slightly more than 15 cents an hour, got a contract from U. S. Steel which provides a flat 11½ cent an hour increase with the highest paid men to get a 27 cent an hour hike.

**THE CONTRACTS** with other companies are similar.

There is a half cent an hour spread between 32 job classifications and the average hourly earnings are increased from $2.33 to $2.48½ an hour.

Under the new contract the lowest paid hourly workers will get $1.68½ an hour. The old rate was $1.57. The highest paid workers — and there are comparatively few in this classification—go from $3.27½ an hour to $3.54½.

**A TWO-YEAR** contract which runs until June 30, 1956, provided that McDonald could bargain only on wages. He couldn't bring up the layoff pay plan which was the crux of recent negotiations between the CIO United Auto Workers and the motor industry.

In contracts with General Motors Corp. and Ford Motor Co., the auto workers got a package increase totalling 20 cents an hour. Six cents an hour was in wage increases for hourly workers with skilled workers receiving an additional eight cents an hour.

**SOME WORKERS** rushed back to the mills within an hour after big steel announced it had signed the contract.

It usually takes 48 hours, from the time furnaces are heated, to get them in full production.

Despite the short length of the walkout it will cost the steel companies several million dollars because they had to gradually cool off furnaces and slow production as the strike deadline approached.

In Washington, Secretary of Labor Mitchell hailed the strike ending agreement as "one more indication of the skill and the maturity of American labor and management."

## Bees Are Active In City Friday

Bees were buzzing around the city in apparent regimental strength Friday.

A police blotter notation at 5:30 p. m., reported Officer Bernard Fowler was bitten by a bee while doing traffic duty on North Front street. He was treated by Dr. Glenn Van Gaasbeek and returned to his post.

**POLICE** contacted C. Edward Rowe, of Rowe's Apiaries, 342 Clifton avenue, relative to a nest of bees in the old Sam Hull Store on North Front street which had been reported to headquarters at 6:40.

A report from 161 Tremper avenue at 8:25 p. m., said a nest of bees in a building back of that address were dangerous to children playing in the neighborhood.

The owner of the building was notified and Mr. Rowe was contacted again for assistance.

### Milton Man Fined For Reckless Driving

George Lamb of Milton was found guilty of reckless driving Friday night before Justice of the Peace Fred Woolsey after a jury trial. Lamb was arrested last February following an automobile accident on Milton Turnpike in the town of Marlborough in which several people in his car were injured and Guy Jocelyn suffered a fractured leg and his wife and daughter were also injured when their car was struck.

Michael Nardone appeared for Lamb and John Gotelli appeared for the district attorney's office. The jury was out about a half hour before returning a guilty verdict. Justice Woolsey imposed a $50 fine.

### Public May Inspect Sub at Poughkeepsie

The U. S. Navy submarine Angler (SSK240) will visit Poughkeepsie during the July 4 weekend and will be open to the public for inspection today, Sunday and Monday.

Visiting hours aboard the sub will be as follows:

Today, 2 to 4:30 p. m., Sunday, 1 to 4:30 p. m. and Monday, 9 to 11:30 a. m. and 1 to 5 p. m.

## Hobby May Quit U. S. Post Soon

Washington, July 2 (AP) — Rumors that Secretary of Welfare Oveta Culp Hobby is going to resign soon have arisen again.

An administration official said last night he understands she will resign in "a week or so, maybe sooner."

Another official said there certainly would be no action taken until after the Fourth of July weekend.

President Eisenhower has said Mrs. Hobby told him some time ago she might have to leave for personal reasons. Her husband William P. Hobby, publisher of the Houston (Tex.) Post, has been ill with arthritis.

**MRS. HOBBY COULD** not be reached for comment on the latest report. To previous ones she has said "no comment."

Her associates said she was reluctant to leave because she has been working on a new information setup for her department.

She has been criticized by some members of Congress for her department's handling of the Salk polio vaccine, but Eisenhower gave her a vote of confidence.

Marion B. Folsom, undersecretary of the Treasury, has been mentioned as "virtually certain" to be Mrs. Hobby's successor.

## JCC Elects Kline

## Times Story

munists, but the newsman and the Times said the Pentagon had cleared it for publication.

Eastland's statement yesterday said the subcommittee has been informed by the Defense Department that it is "unable as yet to state from its own records" whether Grutzner's story was cleared for publication at the Pentagon.

However, Eastland said, the New York Times has stated publicly its records indicate that Austin Stevens of its Washington staff obtained clearance for the story from Jack Shea, then a civilian member of the air force press desk.

The Times, in a dispatch from its Washington bureau, said the late Gen. Hoyt S. Vandenberg, then air force chief of staff, had been identified as the Pentagon official who authorized publication. The Times said Shea recalled the chief of air force information felt the clearance should come from the highest level.

"I have no reason to doubt the truth of (the) statement by the New York Times," Eastland said, "and on this basis it would appear that the Times did nothing to violate security."

"Of course," he added, "the subcommittee never has made any such charge; but I am glad to make this statement in the interest of complete fairness."

## Feels Eisenhower

save it from possible defeat.

Eisenhower said Powell's amendment was out of place in legislation of this sort. He appealed for popular support in his campaign for legislation to build a stronger reserve he said was vital to national security.

Finally, a slightly revised bill was sent back to the House. It sidestepped the segregation issue.

**POWELL, TURNING** down a personal plea from the President, offered a new amendment yesterday to deny draft exemption to National Guard volunteers if they joined segregated units. It was beaten.

The bill passed after the House turned back by a 161-52 standing vote a move by Rep. Nelson (R-Me.) to send the bill back to committee for further study.

Rep. Bow (R-Ohio) withdrew his amendment to bar assignment of American troops to 15 allied nations holding treaty-given jurisdiction over American servicemen involved in criminal cases. Bow said he had been assured the House Foreign Affairs Committee would investigate the situation.

### Collections Day Late

There will be no collection of ashes and rubbish on Monday, July 4, in observance of the holiday. Collections will be one day late next week.

## No Break Looms In Capital Strike

Washington, July 2 (AP)—The weekend brought relief today to Washington's gigantic traffic crush headache caused by a public transit strike.

The strike started yesterday, and all signs pointed to no breaks until Tuesday at the earliest, after the Fourth of July holiday.

**FEDERAL MEDIATORS,** however, were meeting again today with representatives of the Capital Transit Co. and of AFL streetcar and bus workers who want wage increases and some fringe benefits.

Congress planned hearings next week on the problem.

The strike took away bus and streetcar service for an estimated 400,000 customers. As a result, what police said was Washington's worst traffic crush in history clogged the city in the morning. Cars inched bumper to bumper along downtown streets. One driver was working a crossword puzzle as he edged along. Police stood at every downtown section.

### Peron Aide Quits

Buenos Aires, Argentina, July 2 (AP)—Eduardo Vuletich has resigned as secretary general of the Argentine General Confederation of Labor (CGT) because of ill health, the CGT governing board announced last night. Hector De Pietro, formerly second in command, has been elected to succeed him, the announcement said. Vuletich was among the most outspoken supporters of President Juan D. Peron during the eight months of conflict between the government and the Roman Catholic Church in Argentina.

## WE CANNOT STAND ALONE

No nation is prouder of its independence than the United States. Yet even we have had to learn that independence has changing meanings.

When the Founding Fathers signed the Declaration on July 4, 1776, they had in mind the kind of freedom that spells true separateness. They wanted a budding America free to make all its own decisions, without any interference from outside.

It's fair to say that is the kind of country they created. We needed foreign economic help to get going, but once we were on our feet we stood as a great continental empire, as nearly self-contained as any nation ever had been.

Absorbed in our own concerns, we lived and grew and prospered. We wanted no part in world political affairs, and took none.

Today, for us and most others on this planet, there can be no such independence. If we would protect a reasonable freedom of choice for ourselves, we must live and work as part of a team of friendly nations.

Not even the most powerful country on earth can hope to exist as a lone wolf. Indeed, as a powerful land we are in particular need of friends, for we are the obvious target of any potential enemy. We are the nation which above all must be destroyed if any powerful rival is to command the globe.

So pressing is our need for the group strength that comes from interlocking the forces of many lands that we have gone to the extreme of asking our enemies of World War II, Japan and Germany, to rearm on our side.

The legal and material ties that have been fashioned in pursuit of this group strength are in many cases unique to American life and history. Never before, for instance, have we taken part in a military alliance like NATO in peacetime.

But we must not feel that these ties make a web which vitally constricts our freedom and independence.

It is quite true that a member of a team cannot make individual decisions with the cavalier abandon that a lone wolf does. We must accommodate many of our actions to the needs and wishes of the whole team.

But the more impressive fact is that in today's world a lone wolf stands a very good chance of being a dead wolf. And that kind of freedom is not something many men would go search for.

Being a part of a friendly group is now the only way a nation like ours can hope to preserve any important measure of liberty. We yield the power to make many choices alone. But we still hold the right to make countless decisions that affect our lives deeply.

This may not be quite the perfect independence the signers of the Declaration were thinking of. But surely it is an independence they would be happy to enjoy and to have had a part in creating.

The vogue of Davy Crockett must make his predecessor in popularity with the younger set, Hopalong Cassidy, somewhat envious. And what must be the feelings of Tarzan, the hero who antedated them both?

## BURDEN FOR LOWER INCOMES

It has been observed that the possibility of soaking the rich to pay the cost of government went out with prohibition and Empress Eugenie hats.

If the federal government took every nickel of individual taxable income above $10,000 a year, the amount collected wouldn't pay its bills for one month. If it took all taxable income above $4,000, it would get only a fifth of what it is spending each year.

We just haven't got enough rich or middle income people to soak, and those we have are soaked to the hilt already. So the lower incomes must carry a great part of the burden.

### THE QUESTION OF SECURITY

On many questions, the real difficulty that faces our government is that we "just growed." Up to World War II, our people were not conscious of security. They assumed that the Germans and Japanese had spies in this country and that there were a few troublesome anarchists around. But generally it was held that an American was always a loyal citizen, no matter how peculiar his ideas might be.

Then the Harold Ware group appeared on the scene (1934) and the House Committee on Un-American Activities, under Representative Martin Dies, commenced its investigation of Communists, Fascists and other unusual people. It was not, however, until the Alger Hiss, Remington and Coplon trials and the trial of the First String Communists that Americans became conscious of a gnawing evil. Federal, State, governmental and private agencies appeared on the scene to wipe out this conspiracy.

In addition, several screwball organs appeared which confused anti-Semitism, anti-Catholicism, anti-Negroism, anti-New Dealism with anti-Communism .Also some crooks got into the picture who discovered how to earn a living out of their opposition to Communism. Their propaganda was not based on knowledge of Marxism; it was based on hate. Their profane advocacy of hate made genuine anti-Marxists ashamed and drove thousands of Americans into silence because they were unwilling, even in a good cause, to be identified with scoundrels.

In this group, it is wrong to include the recognized informants and the undercover agents who, at the risk of their lives and always of their comforts, and for trifling compensation, served the FBI, the Immigration Service, and various Congressional committees, as soldiers do on the field of battle. Some informants, under the stress of opposition and often distressed by an ungrateful government which failed to protect them, went sour. At least one was bought off.

Senator Joe McCarthy's service was to dramatize the issue. Toward the end of his hearings, tired, sick, battered for weeks by the opposition, he became entangled in a quarrel with the White House and was struck down by the full force of Executive power. This particular quarrel could have been avoided by both sides; it had the effect of making McCarthy and not Communism the issue. As between McCarthy and Eisenhower, most Americans chose Eisenhower.

Subsequent to those hearings, the Communists gained courage and again took the offensive. Many anti-Communists supported the issues that the Communists raised. For instance, a great many professors in universities felt that in the process of the battle against Communists, a general attack on "intellectuals" was being launched. The Communists cleverly opposed conformity and many who are not Communists also oppoosed conformity. This was one of those "big lie" slogans that Marxists project so skillfully. It has been successful.

The Fund for the Republic, which received $15,000,000 from the Ford Foundation, took up this fight and became a sort of actions committee on the side of what they call civil rights. It has worked out to be a defense organization.

The Fund for the Republic is a private body using tax-free money to do exactly on one side what is regards as improper for citizens to do on the other side. It employs investigators and snoopers to discover what active anti-Communists have been doing in the fight.

What is needed is a government policy on the subject. What are the precise functions and rights of the FBI? How shall its security be protected? What are the specific functions of the various security activities of the Federal Government and what are the rights of those who may be suspected of some such activity as Harry Dexter White's? How shall Congressional committees conduct their hearings? What is the function of the Passport Office, the Immigration Service, the Department of Justice in the security set-up? Suppose a man is unjustly or spitefully accused, by what process does he clear his name? Actually, today, no swift and complete means are available for such a purpose. A way was found in the motion picture industry which produced good results and was fair all around. It worked well for three years, 1951 to 1954, and then collapsed.

The problem of security is real. The methods have been inadequate and sometimes unjust. A solution must be found because we cannot be without security in the present confused world; yet we must not be unjust to any American citizen.

### MINERALS FROM THE EARTH AROUND US

"When you sit down to dinner tonight you may be startled to know that there are about thirty-five thousand more persons in the world than when you had your breakfast." This opening sentence in an article by Normal J. Berrill, Professor of Zoology at McGill University entitled, "How Long Can the Earth Keep Us Eating?" was certainly startling.

I think we have all read books or articles in recent years pointing out the tremendous increase in the human population of the world and the danger that in time the earth may no longer be able to produce enough food to support us unless we give great attention to doing something about it now. We are so apt to ignore such warnings because at no time in the world's history has such varieties of food been available to so many people as today.

"We work at this or that, take some pieces of paper money down to half a dozen stores, hand them over, and walk out with the necessities of life. It is almost like magic. If we were given an acre of land and told to raise a child on it, we would have a better appreciaion of how we stand."

It has been estimated that one person in their lifetime consumes between thirty and forty tons of food. For example, the average North American consumes each year about 250 quarts of milk, 360 eggs, 170 pounds of meat, poultry and fish, 190 pounds of grain, 130 pounds of potatoes, 65 pounds of fats and oils, 480 pounds of vegetables and fruits, 110 pounds of sugar, and about twenty pounds of tea, coffee and chocolate. It amounts to 1,300 pounds per person per year, not counting the weight of the water in the milk. It is no wonder that obesity is a real problem to so many of us. When we realize that the earth's population has increased from five hundred million to twenty-five hundred million in the past three hundred years, we can see what the problem is likely to be.

I have mentioned before the four minerals in which our diet is most likely to be deficient — calcium, phosphorus, iron and iodine. Both calcium and phosphorus are needed for bone and teeth and muscle, and no substitutes are possible. We need a good quantity of iron for our blood. Iodine is obtained from seafoods and iodized salt and fruits and vegetables from regions where goiter is not found. If the land on which foods are grown is allowed to deteriorate, we will not get enough of these needed elements in our diet.

Keeping the above facts in mind along with the knowledge that there is continual loss of top soil by weather, we should support any movement to increase the earth's fertility, whether we farm the land ourselves or live in a city apartment.

Washington—(NEA) — American state and local governments must be reorganized and strengthened.

This is essentially a task for the states themselves.

Federal government actions should be reserved for fields that state and local governments can't handle.

In oversimplified summary these are perhaps the key recommendations in the long-awaited report from the presidential congressional, 25-member commission on intergovernmental relations.

What, if anything, will be done about its scores of specific recommendations for overhaul of all government machinery is uncertain. President Eisenhower will no doubt send to the next session of Congress a program for carrying out some of its policies.

**BUT THE FEDERAL GOVERNMENT** has no power over state governments. It can't force them to reorganize their state machinery nor modernize their constitutions.

Also, there are well-organized pressure groups which want the state and local governments kept weak and inefficient. In that condition they can be controlled easier by lobbies.

It will take a powerful force of public opinion to overcome the lethargy and opposition to reform which the commission on intergovernmental relations point up in a quiet effective way.

When Meyer Kestnbaum, head of Hart, Schaffner & Marx, Chicago, was named chairman of this commission two years ago, he went to see ex-President Herbert Hoover for advice. "Pick out the horrible examples," Mr. Hoover told him.

**REPORTS OF THE HOOVER COMMISSION** are, of course, filled with examples of waste in federal government. The Ketsnbaum Commission report has a few horrible examples all right, but nobody's nose is rubbed in them.

They show waste and duplication in 50 grant-in-aid programs to the states, in farm aid, highway programs, disaster relief, public health, education and welfare.

But by and large the commission takes the sane view of what is probably the oldest problem in American government. It is how the federal government, the 48 states, the 3000 counties, 17,000 incorporated cities, 17,000 towns and townships, 60,000 school districts and 12,000 special districts can get along without overlapping and conflict.

If the Kestnbaum Commission had chosen to show how the federal government could save three billion dollars, it would have made more dramatic news. The commission chose instead to show how the quality of all governments might be improved.

**PEOPLE WHO EXPECTED** the commission on intergovernmental relations to come out with a rip-snorting report, damning all federal spending programs and recommending that all big government powers be decentralized and handed back to the states, will therefore be disappointed.

Under Dean Clarence M. Manion of Notre Dame, first chairman of the commission, who had pronounced prejudices on all these problems, a blistering report was expected.

Under Meyer Kestnbaum, who succeeded him, a middle-of-the-road approach to the problem has been taken. It offers no magic formula for solving overnight the old states' rights-versus-federal government controversy. It puts more emphasis on getting the states to assume their full responsibility.

It recognizes that the role of federal government has necessarily expanded. It recognizes that it will be difficult to undo what has already been done. It does not anticipate that any great savings can be made in total cost to the taxpayers.

But in reassessing state and local government fiscal responsibilities, it foresees that some of the tax burden may be shifted.

What has been produced in the Kestnbaum Commission's 300-page report is a handbook that will serve as a guide for all future intergovernmental relations. It's just the beginning of the job.

# THE RUMINATOR

**By HUMPHREY B. NEILL**

*A Column of Contrary Opinion*

One of the intriguing manifestations of the current era is the manner in which "magnetism" is now getting in its work.

Magnetism, as I use it here, is another way of expressing the psychological factor of contagion.

Readers whose memories go back to the 1920's will know what I mean by the magnetism and contagion of New Eraism.

**MAGNETISM** is perhaps most easily illustrated in the stock market. Let me go back for the illustration. In 1928 there were countless people who "knew" the stock market was too high. Prices were simply getting out of all reason, in their view. A great many conservative investors thereupon deserted the stock market and invested their funds in bonds, savings accounts, or kept them in cash.

As the months wore on, and prices kept moving higher, these conservative people became more and more uneasy. They disliked, of course, to figure the handsome profits they had lost by getting out of the stock market. By mid-1929 the pull and tug of ever-higher price levels in Wall Street became more than they could bear.

The magnetism of the stock market was getting in its work.

What happened then was that a large number of these conservative investors became convinced they had completely misjudged conditions and that we were, actually, in a New Era. Throwing caution to the winds, they sold their bonds, withdrew their cash, and went back into the stock market.

You don't need further comment as to what happened. They got aboard the ship just in time to see it sink. Not only did their profits disappear but in many cases their capital as well.

**THE INTERESTING** thing about it all at the time was "everyone" knew it just couldn't happen. WE were in a New Era which would last forever; the days of depressions and stock-market collapses had passed. The business cycle had been conquered; the history of boom-and-bust would not be repeated.

Today a similar strain of thought persists. The ups and downs of business cycle have at last been solved. By "economic management" — through monetary manipulation and government intervention—no serious and crippling depression can develop. (What is meant by these remarks is that a constant but "safe" inflation will prevent shortages of credit and purchasing power.)

It is noticeable, too, that "magnetism" is getting to work again. You can see it reflected in the stock market, as it has been in past booms.

One of the indications of public participation in the market is found in the odd-lot transactions (those of less than hundred-share lots). These reflect the activities of the smaller investors and traders. Another indication of public interest in stocks is the sales of "mutual funds."

It is noteworthy that a year and more ago when the indexes of market averages were a hundred points or more lower than they are now the odd-lot transactions showed that people were selling more shares than they were buying. In other words, the market looked too high—then. In recent weeks, with the market elevated on stilts, and prices far above last year's levels, people are buying on balance. That is, there is less fear of the market at today's levels than when it was much lower.

You find commentators rationalizing today's levels by explaining that business is booming, that profits are high, and that stocks are not over-valued—and so on.

**THE CONTAGION** of rising prices is pulling people back into the market in the same manner as in 1929. Magnetism is evident, as activity continues high.

In the same manner the ideas spread that, as mentioned above, modern economic knowledge has solved the wicked swings in the business cycle.

So far, it is obvious that the New Era line of thought is correct. The boom runs on. There is no sign that it is ending. Accordingly, those who suggest, as the Ruminator does, that it will end and a collapse will follow, are considered merely forecasters of gloom and doom.

However, history demonstrates the soundness of the old truism that it pays to make hay while the sun shines, so as to have your crop in the barn when it rains.

## WE CANNOT STAND ALONE

No nation is prouder of its independence than the United States. Yet even we have had to learn that independence has changing meanings.

When the Founding Fathers signed the Declaration on July 4, 1776, they had in mind the kind of freedom that spells true separateness. They wanted a budding America free to make all its own decisions, without any interference from outside.

It's fair to say that is the kind of country they created. We needed foreign economic help to get going, but once we were on our feet we stood as a great continental empire, as nearly self-contained as any nation ever had been.

Absorbed in our own concerns, we lived and grew and prospered. We wanted no part in world political affairs, and took none.

Today, for us and most others on this planet, there can be no such independence. If we would protect a reasonable freedom of choice for ourselves, we must live and work as part of a team of friendly nations.

Not even the most powerful country on earth can hope to exist as a lone wolf. Indeed, as a powerful land we are in particular need of friends, for we are the obvious target of any potential enemy. We are the nation which above all must be destroyed if any powerful rival is to command the globe.

So pressing is our need for the group strength that comes from interlocking the forces of many lands that we have gone to the extreme of asking our enemies of World War II, Japan and Germany, to rearm on our side.

The legal and material ties that have been fashioned in pursuit of this group strength are in many cases unique to American life and history. Never before, for instance, have we taken part in a military alliance like NATO in peacetime.

But we must not feel that these ties make a web which vitally constricts our freedom and independence.

It is quite true that a member of a team cannot make individual decisions with the cavalier abandon that a lone wolf does. We must accommodate many of our actions to the needs and wishes of the whole team.

But the more impressive fact is that in today's world a lone wolf stands a very good chance of being a dead wolf. And that kind of freedom is not something many men would go search for.

Being a part of a friendly group is now the only way a nation like ours can hope to preserve any important measure of liberty. We yield the power to make many choices alone. But we still hold the right to make countless decisions that affect our lives deeply.

This may not be quite the perfect independence the signers of the Declaration were thinking of. But surely it is an independence they would be happy to enjoy and to have had a part in creating.

The vogue of Davy Crockett must make his predecessor in popularity with the younger set, Hopalong Cassidy, somewhat envious. And what must be the feelings of Tarzan, the hero who antedated them both?

## BURDEN FOR LOWER INCOMES

It has been observed that the possibility of soaking the rich to pay the cost of government went out with prohibition and Empress Eugenie hats.

If the federal government took every nickel of individual taxable income above $10,000 a year, the amount collected wouldn't pay its bills for one month. If it took all taxable income above $4,000, it would get only a fifth of what it is spending each year.

We just haven't got enough rich or middle income people to soak, and those we have are soaked to the hilt already. So the lower incomes must carry a great part of the burden.

# 'These Days'

By GEORGE SOKOLSKY

## THE QUESTION OF SECURITY

On many questions, the real difficulty that faces our government is that we "just growed." Up to World War II, our people were not conscious of security. They assumed that the Germans and Japanese had spies in this country and that there were a few troublesome anarchists around. But generally it was held that an American was always a loyal citizen, no matter how peculiar his ideas might be.

Then the Harold Ware group appeared on the scene (1934) and the House Committee on Un-American Activities, under Representative Martin Dies, commenced its investigation of Communists, Fascists and other unusual people. It was not, however, until the Alger Hiss, Remington and Coplon trials and the trial of the First String Communists that Americans became conscious of a gnawing evil. Federal, State, governmental and private agencies appeared on the scene to wipe out this conspiracy.

In addition, several screwball organs appeared which confused anti-Semitism, anti-Catholicism, anti-Negroism, anti-New Dealism with anti-Communism .Also some crooks got into the picture who discovered how to earn a living out of their opposition to Communism. Their propaganda was not based on knowledge of Marxism; it was based on hate. Their profane advocacy of hate made genuine anti-Marxists ashamed and drove thousands of Americans into silence because they were unwilling, even in a good cause, to be identified with scoundrels.

In this group, it is wrong to include the recognized informants and the undercover agents who, at the risk of their lives and always of their comforts, and for trifling compensation, served the FBI, the Immigration Service, and various Congressional committees, as soldiers do on the field of battle. Some informants, under the stress of opposition and often distressed by an ungrateful government which failed to protect them, went sour. At least one was bought off.

Senator Joe McCarthy's service was to dramatize the issue. Toward the end of his hearings, tired, sick, battered for weeks by the opposition, he became entangled in a quarrel with the White House and was struck down by the full force of Executive power. This particular quarrel could have been avoided by both sides; it had the effect of making McCarthy and not Communism the issue. As between McCarthy and Eisenhower, most Americans chose Eisenhower.

Subsequent to those hearings, the Communists gained courage and again took the offensive. Many anti-Communists supported the issues that the Communists raised. For instance, a great many professors in universities felt that in the process of the battle against Communists, a general attack on "intellectuals" was being launched. The Communists cleverly opposed conformity and many who are not Communists also oppoosed conformity. This was one of those "big lie" slogans that Marxists project so skillfully. It has been successful.

The Fund for the Republic, which received $15,000,000 from the Ford Foundation, took up this fight and became a sort of actions committee on the side of what they call civil rights. It has worked out to be a defense organization.

The Fund for the Republic is a private body using tax-free money to do exactly on one side what is regards as improper for citizens to do on the other side. It employs investigators and snoopers to discover what active anti-Communists have been doing in the fight.

What is needed is a government policy on the subject. What are the precise functions and rights of the FBI? How shall its security be protected? What are the specific functions of the various security activities of the Federal Government and what are the rights of those who may be suspected of some such activity as Harry Dexter White's? How shall Congressional committees conduct their hearings? What is the function of the Passport Office, the Immigration Service, the Department of Justice in the security set-up? Suppose a man is unjustly or spitefully accused, by what process does he clear his name? Actually, today, no swift and complete means are available for such a purpose. A way was found in the motion picture industry which produced good results and was fair all around. It worked well for three years, 1951 to 1954, and then collapsed.

The problem of security is real. The methods have been inadequate and sometimes unjust. A solution must be found because we cannot be without security in the present confused world; yet we must not be unjust to any American citizen.

## Painful Duty

Richmond, Va. (AP) — Bernard S. Holt, for exceptional devotion to duty, had a pain in the jaw. Holt, partner in an investment firm, was conducting a weekly class on stocks and bonds at Mary Munford School. About 400 Richmonders attended each Wednesday night. Just before class time he developed an agonizing ache in a wisdom tooth. The dentist couldn't guarantee his ability to talk in time for the class if he had it pulled. So—Holt had the dentist wait until the class ended.

## A Private Affair

Camp Pendleton, Calif. (AP)—A corporal and a private pinned the new stars on U. S. Marine Corps Brig. Gen. Randall M. Victory when he was promoted from colonel. They were his sons, Cpl. Randall M. Jr., and Pvt. Wallis O., both in training at Camp Pendleton, where their father is assistant commander.

# THE RUMINATOR

By HUMPHREY B. NEILL

*A Column of Contrary Opinion*

One of the intriguing manifestations of the current era is the manner in which "magnetism" is now getting in its work.

Magnetism, as I use it here, is another way of expressing the psychological factor of contagion.

Readers whose memories go back to the 1920's will know what I mean by the magnetism and contagion of New Eraism.

**MAGNETISM** is perhaps most easily illustrated in the stock market. Let me go back for the illustration. In 1928 there were countless people who "knew" the stock market was too high. Prices were simply getting out of all reason, in their view. A great many conservative investors thereupon deserted the stock market and invested their funds in bonds, savings accounts, or kept them in cash.

As the months wore on, and prices kept moving higher, these conservative people became more and more uneasy. They disliked, of course, to figure the handsome profits they had lost by getting out of the stock market. By mid-1929 the pull and tug of ever-higher price levels in Wall Street became more than they could bear.

The magnetism of the stock market was getting in its work.

What happened then was that a large number of these conservative investors became convinced they had completely misjudged conditions and that we were, actually, in a New Era. Throwing caution to the winds, they sold their bonds, withdrew their cash, and went back into the stock market.

You don't need further comment as to what happened. They got aboard the ship just in time to see it sink. Not only did their profits disappear but in many cases their capital as well.

**THE INTERESTING** thing about it all at the time was "everyone" knew it just couldn't happen. WE were in a New Era which would last forever; the days of depressions and stock-market collapses had passed. The business cycle had been conquered; the history of boom-and-bust would not be repeated.

Today a similar strain of thought persists. The ups and downs of business cycle have at last been solved. By "economic management" — through monetary manipulation and government intervention—no serious and crippling depression can develop. (What is meant by these remarks is that a constant but "safe" inflation will prevent shortages of credit and purchasing power.)

It is noticeable, too, that "magnetism" is getting to work again. You can see it reflected in the stock market, as it has been in past booms.

One of the indications of public participation in the market is found in the odd-lot transactions (those of less than hundred-share lots). These reflect the activities of the smaller investors and traders. Another indication of public interest in stocks is the sales of "mutual funds."

It is noteworthy that a year and more ago when the indexes of market averages were a hundred points or more lower than they are now the odd-lot transactions showed that people were selling more shares than they were buying. In other words, the market looked too high—then. In recent weeks, with the market elevated on stilts, and prices far above last year's levels, people are buying on balance. That is, there is less fear of the market at today's levels than when it was much lower.

You find commentators rationalizing today's levels by explaining that business is booming, that profits are high, and that stocks are not over-valued—and so on.

**THE CONTAGION** of rising prices is pulling people back into the market in the same manner as in 1929. Magnetism is evident, as activity continues high.

In the same manner the ideas spread that, as mentioned above, modern economic knowledge has solved the wicked swings in the business cycle.

So far, it is obvious that the New Era line of thought is correct. The boom runs on. There is no sign that it is ending. Accordingly, those who suggest, as the Ruminator does, that it will end and a collapse will follow, are considered merely forecasters of gloom and doom.

However, history demonstrates the soundness of the old truism that it pays to make hay while the sun shines, so as to have your crop in the barn when it rains.

## Kroll String Quartet Opening Program At Tanglewood

Symphony, choral and chamber music comes again to the Berkshire Hills in western Massachusetts with the opening this week at Tanglewood, Lennox, Mass., of the annual Berkshire Festival of the Boston Symphony Orchestra, led by its music director, Charles Munch. For the sixteenth summer since the Boston Symphony Orchestra has participated, concerts will be given for six weeks, July 6 to August 14, on the estate where a century ago Nathaniel Hawthorne was a guest and told his "Tanglewood Tales."

The 1955 Berkshire Festival of 24 concerts commences Wednesday evening with an all-Beethoven program by the Kroll String Quartet. On Friday evening Charles Munch will conduct a chamber orchestra of Boston Symphony players in a program of Bach, Stravinsky and Mozart, with the orchestra's first flutist, Doriot Anthony Dwyer, as soloist.

The Saturday evening chamber orchestra concert of Handel, Haydn and Hindemith, with Boston Symphony Orchestra's first violist, Joseph de Pasquale, as soloist, will have at its helm Thor Johnson, conductor of the Cincinnati Symphony Orchestra, who was a student of conducting in 1940 and 1941 at Tanglewood's Berkshire Music Center, the summer school of music maintained by the Boston Symphony in conjunction with its Berkshire Festival concerts. On Sunday afternoon (July 10), Charles Munch will lead the chamber orchestra in Bach's Mass in B minor, with the Harvard Glee Club and Radcliffe Choral Society, and the following soloists: Adele Addison, soprano; Florence Kopleff, contralto; John McCollum, tenor; Donald Gramm, bass.

The above concerts and those of the following week, July 13-15-16-17, will all be given in the intimate 1,200-seat Theatre-Concert Hall at Tanglewood, evenings at 8:30 o'clock, Sunday at 2:30 p. m.

## Many Graduated In Medical Aide Training Classes

One of the divisions of the Ulster-Kingston Civil Defense Council which has advanced at a rapid pace is the medical aide training classes. Several townships have conducted classes and more are in the process of forming. When a class is completed each person who completed the course receives a diploma attesting to the class of course they have completed. There are three classes of courses, second class, third class and fourth class.

In Kerhonkon, the first class to be organized several months ago with Mrs. Elizabeth R. Lingley, RN as the instructor, 35 were graduated second class, 17 were graduated third class and 24 were graduated fourth class. Another class was conducted in Kerhonkson under the direction of Mrs. Catherine Blair, RN and in this class 26 were graduated as second class medical aides.

**THERE IS** a class in training in West Hurley with Mrs. Theodore Lyke, RN, and Mrs. Merrill Yaple, RN, as instructors. This class has adjourned for the summer months and will continue in the fall.

A class at Saugerties conducted under the direction of Mrs. Julia Pakanen, RN graduated 18 second class medical aides.

Mrs. Gloria Gilmour, RN is conducting a class at Plattekill in which 24 persons are receiving instruction.

At Colonial Gardens in Kingston, a class of 19 graduated as second class and one as third class. This class was conducted by Mrs. Margaret Clerc, RN and received their diplomas as of June 28.

Allan L. Hanstein, director of the Ulster Kingston Civil Defense, has expressed his gratification at the splendid work being done in this field and hopes to have many more classes started in the fall. Anyone interested in starting such training in their township should contact their local Civil Defense Director or the Ulster Kingston Civil Defense Office, City Hall, Kingston.

### Cub Pack 19 Has Circus Program

With the roars of approval from the crowd substituting for the usual racket created by the lions, the Cub Scouts of Pack 19, sponsored by the Veterans of Foreign Wars Post 1386, staged a full-scale circus at Lawton Park Wednesday night in conjunction with the monthly pack meeting.

The O'Neil family planned the presentation, with Keron O'Neil acting as the whistle-blowing ringmaster. A series of seven sideshow acts by Den 1, "big top" acts by Den 2, and a "midway" by Den 3 provided the triple staging. Even a trained wild animal act was presented, although the "animal" looked suspiciously like a "rabbit with a boy inside." Additional entertainment, not on the ringmaster's schedule, came when the "fat lady" encountered difficulties attaining the top of the sideshow platform and had to be boosted up with a great deal of pushing.

**A SERIOUS SIDE** to the program came with the graduation of Cub Scout William Bodenweber to Boy Scout Troop 6, sponsored by the First Baptist Church. Scout Bodenweber was flanked by his mother, father, and sisters in front of the ceremonial board, received his graduation certificate for three years of Cubbing in which he attained all ranks possible, and was welcomed into Troop 6 by Scoutmaster Robert Hillis.

Paul V. Geary received his Bobcat pin in an induction ceremony, was welcomed into Den 3 by Den Chief Frank Rittie, and was presented with his registration card by his father.

**TWO NEW DEN** Chiefs were introduced to the audience of well over a hundred people. Joseph Gillen of Troop 6 and Daniel Devine of Troop 19 were received into Dens 1 and 2 as leaders.

Rank advancements in Pack 19 for the past month were recognized with a ceremony which featured the following Cub Scouts:

Richard Nason and Oscar Bollin of Den 1, Bear rank; John Fisk of Den 2, Wolf rank; Gregory Munson of Den 3, Wolf rank.

Arrow points for accomplishments during the month were:

Den 1, Betty Eighmey den mother: John Schleede;

Den 2, Lucille Bonomo den mother: Kerry Covey, Charles Bonomo, Douglas Eighmey, John Fisk, Robert Lacey, William Wiegert, William Collins, and Michael Van Valkenburgh;

Den 3, Lillian Rittie den mother: Carl Wiegert, Ronald Rittie, Michael Bonomo.

**CUB SCOUTS** cited for perfect uniform inspections in the dens during the month of June were:

Den 1: John Schleede, Roger Sahloff, Oscar Bollin, and David O'Neil.

Den 2: Kerry Covey, John Fisk, Michael VanValkenburgh, and Douglas Eighmey;

Den 3: William Bodenweber, William Hart, Gregory Munson, David Godbey and Ronald Rittie.

Den Chief James Connelly received his one year service star and a one year perfect attendance pin.

Special awards for behavior in the den and for a poster contest, were presented by the Den Mother of Den 2.

During the parents' meeting, the Cubmaster presented plans for the July and August pack meetings, revealed preparations for attendance at the annual Cub Day at Camp TriMount on July 9, and announced a list of six educational trips for the entire membership of Pack 19 during the summer months.

Refreshments were served at the close of the meeting.

## Kroll String Quartet Opening Program At Tanglewood

Symphony, choral and chamber music comes again to the Berkshire Hills in western Massachusetts with the opening this week at Tanglewood, Lennox, Mass., of the annual Berkshire Festival of the Boston Symphony Orchestra, led by its music director, Charles Munch. For the sixteenth summer since the Boston Symphony Orchestra has participated, concerts will be given for six weeks, July 6 to August 14, on the estate where a century ago Nathaniel Hawthorne was a guest and told his "Tanglewood Tales."

The 1955 Berkshire Festival of 24 concerts commences Wednesday evening with an all-Beethoven program by the Kroll String Quartet. ## Many Graduated In Medical Aide Training Classes

One of the divisions of the Ulster-Kingston Civil Defense Council which has advanced at a rapid pace is the medical aide training classes. Several townships have conducted classes and more are in the process of forming. When a class is completed each person who completed the course receives a diploma attesting to the class of course they have completed. There are three classes of courses, second class, third class and fourth class.

In Kerhonkon, the first class to be organized several months ago with Mrs. Elizabeth R. Lingley, RN as the instructor, 35 were graduated second class, 17 were graduated third class and 24 were graduated fourth class. Another class was conducted in Kerhonkson under the direction of Mrs. Catherine Blair, RN and in this class 26 were graduated as second class medical aides.

**THERE IS** a class in training in West Hurley with Mrs. Theodore Lyke, RN, and Mrs. Merrill Yaple, RN, as instructors. This class has adjourned for the summer months and will continue in the fall.

A class at Saugerties conducted under the direction of Mrs. Julia Pakanen, RN graduated 18 second class medical aides.

Mrs. Gloria Gilmour, RN is conducting a class at Plattekill in which 24 persons are receiving instruction.

At Colonial Gardens in Kingston, a class of 19 graduated as second class and one as third class. This class was conducted by Mrs. Margaret Clerc, RN and received their diplomas as of June 28.

Allan L. Hanstein, director of the Ulster Kingston Civil Defense, has expressed his gratification at the splendid work being done in this field and hopes to have many more classes started in the fall. Anyone interested in starting such training in their township should contact their local Civil Defense Director or the Ulster Kingston Civil Defense Office, City Hall, Kingston.

### Cub Pack 19 Has Circus Program

With the roars of approval from the crowd substituting for the usual racket created by the lions, the Cub Scouts of Pack 19, sponsored by the Veterans of Foreign Wars Post 1386, staged a full-scale circus at Lawton Park Wednesday night in conjunction with the monthly pack meeting.

The O'Neil family planned the presentation, with Keron O'Neil acting as the whistle-blowing ringmaster. A series of seven sideshow acts by Den 1, "big top" acts by Den 2, and a "midway" by Den 3 provided the triple staging. Even a trained wild animal act was presented, although the "animal" looked suspiciously like a "rabbit with a boy inside." Additional entertainment, not on the ringmaster's schedule, came when the "fat lady" encountered difficulties attaining the top of the sideshow platform and had to be boosted up with a great deal of pushing.

**A SERIOUS SIDE** to the program came with the graduation of Cub Scout William Bodenweber to Boy Scout Troop 6, sponsored by the First Baptist Church. Scout Bodenweber was flanked by his mother, father, and sisters in front of the ceremonial board, received his graduation certificate for three years of Cubbing in which he attained all ranks possible, and was welcomed into Troop 6 by Scoutmaster Robert Hillis.

Paul V. Geary received his Bobcat pin in an induction ceremony, was welcomed into Den 3 by Den Chief Frank Rittie, and was presented with his registration card by his father.

**TWO NEW DEN** Chiefs were introduced to the audience of well over a hundred people. Joseph Gillen of Troop 6 and Daniel Devine of Troop 19 were received into Dens 1 and 2 as leaders.

Rank advancements in Pack 19 for the past month were recognized with a ceremony which featured the following Cub Scouts:

Richard Nason and Oscar Bollin of Den 1, Bear rank; John Fisk of Den 2, Wolf rank; Gregory Munson of Den 3, Wolf rank.

Arrow points for accomplishments during the month were:

Den 1, Betty Eighmey den mother: John Schleede;

Den 2, Lucille Bonomo den mother: Kerry Covey, Charles Bonomo, Douglas Eighmey, John Fisk, Robert Lacey, William Wiegert, William Collins, and Michael Van Valkenburgh;

Den 3, Lillian Rittie den mother: Carl Wiegert, Ronald Rittie, Michael Bonomo.

**CUB SCOUTS** cited for perfect uniform inspections in the dens during the month of June were:

Den 1: John Schleede, Roger Sahloff, Oscar Bollin, and David O'Neil.

Den 2: Kerry Covey, John Fisk, Michael VanValkenburgh, and Douglas Eighmey;

Den 3: William Bodenweber, William Hart, Gregory Munson, David Godbey and Ronald Rittie.

Den Chief James Connelly received his one year service star and a one year perfect attendance pin.

Special awards for behavior in the den and for a poster contest, were presented by the Den Mother of Den 2.

During the parents' meeting, the Cubmaster presented plans for the July and August pack meetings, revealed preparations for attendance at the annual Cub Day at Camp TriMount on July 9, and announced a list of six educational trips for the entire membership of Pack 19 during the summer months.

Refreshments were served at the close of the meeting.

## Wage Boost Rejected

New York, July 2 (AP)—A 30-cent hourly wage boost—spread over three years—has been rejected by AFL Teamsters who move materials to New York city construction sites. The union, however, said it planned no immediate strike against the city's 600 million dollars worth of current construction projects and ordered its members to stay on the job during further negotiations.

## Deserters Captured

Port Said, Egypt, July 1 (AP)—Sixty-seven French Foreign Legion veterans of the Indochina war jumped ship in the Suez Canal Zone yesterday. It was the biggest mass legion desertion so far in the area. The Egyptian Coast Guard rounded up the whole bunch, who included 49 Germans, 8 Italians, 2 Belgians, 2 Spaniards, 1 stateless person and 1 each from The Netherlands, Yugoslavia, Finland, Austria and Poland.

## New Hanger Eliminates Shifting of Built-in Tub

A new hanger for built-in bathtubs eliminates the possibility of the fixture shifting its position due to a sagging floor or wood warpage, says the Plumbing and Heating Industries Bureau. The effect of the hanger is to provide a secure anchor for the bathtub. Once the bathtub has been snugly and securely fitted into place, the plaster and tile can be placed over the raised flange of the bath, creating an effective seal so that no water can seep through to cause moisture damage.

### Paint Tree Scar

When it is necessary to remove the limb of a tree, coat the exposed wood on the tree trunk with shellac or asphalt paint. This will prevent the wood from being attacked by decay.

## Don't Paint Wood Roof Shingles

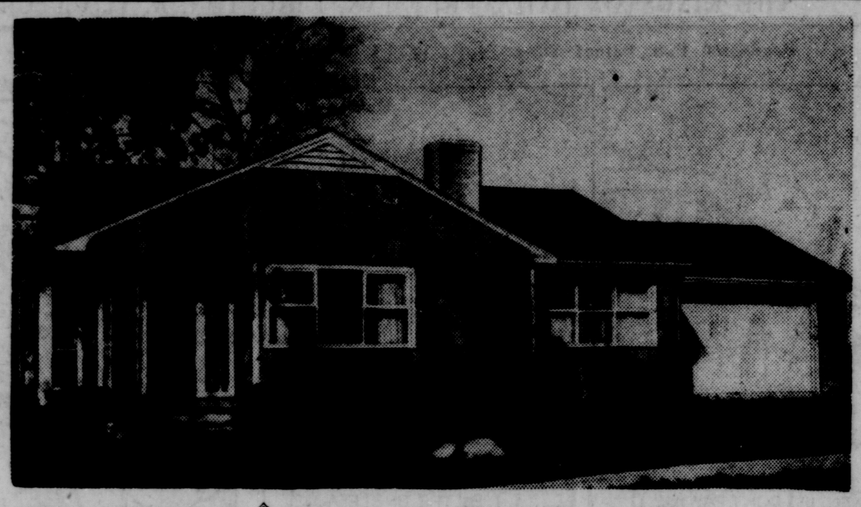
Wood roof shingles should never be painted. They can be stained with a colored shingle stain. Wood shingles used on the side walls can be painted, or they can be stained. If you want to paint, use a regulation house paint on them. If the shingles were previously stained and now you want to paint 'em, apply a coat of aluminum paint first to prevent the stain from bleeding through the paint.

Asbestos shingles in either roof or sidewalls can be painted with a special type of paint made for asbestos shingles. Ordinary house paint can be used on asbestos sidewall shingles but it's risky because of the possibility of moisture or active lime in the shingles.

Asphalt shingles require something very special in the way of paint if it's going to last for very long. There is a paint that has been developed for asphalt and it seems to be working out okey. Paints suitable for wood or asbestos shingles are useless on asphalt.

### Much Damage Caused By Heaving of Plants

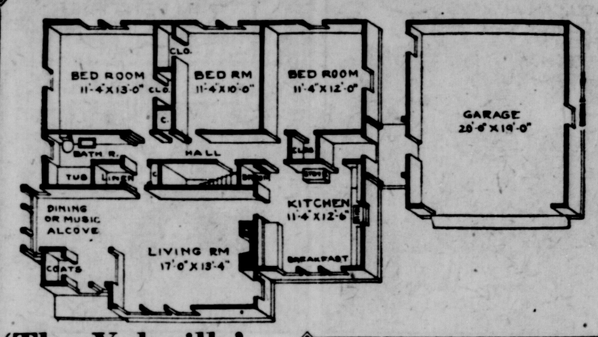
Heaving of plants as a result of alternate freezing and thawing during the winter probably causes as much havoc as extreme cold. It's a good idea, in mild spells, to go and see if any plants have been pushed out of the ground, and push them back in again. Small and shallow-rooted species, such as primroses and strawberries, are most apt to heave and they dry out quickly. They're the first ones to check.



### Metal Paint Cuts Down Radiator Heat Output

The practice of coating hot water and steam radiators with metallic paint is extremely wasteful of fuel. The metallic paint acts as an insulator, in some cases holding as much as 15 per cent of the heat within the radiator.

For that reason, radiators should be painted with a good oil paint or enamel. Flat wall paint has greater resistance to blistering and peeling than other kinds. Before repainting, as much of the metallic paint as possible should be removed with a wire brush and the new paint spread on thinly while the radiator is cold. Do not turn on the heat until the paint is completely dry.



## 'The Yaleville' Has Roomy Interior

| | |
|---|---|
| Rooms | Five |
| Bedrooms | Three |
| Closets | Seven |
| Cubage | |
| House | 21,500' |
| Garage | 4,800' |
| Dimensions | |
| House | 39' x 28' |
| Overall | 67' |

Although from its exterior, "The Yaleville," offered today by the Home of the Week Plan Service, gives the appearance of being a small home it actually has a comfortably roomy interior.

Measurements of the house proper are 28 by 39 feet; overall length — including the attached garage—is 67 feet .Cubage of the house is 21,500 feet; garage cubage is 4800 feet. At least a 90-foot lot would be needed to build this house.

**Three Bedrooms**

Wide clapboards — with narrow slats extending up to the peak of the roof at the front of the house—make a pleasing and appropriate exterior finish. Should you prefer any other type of finish you'll find that with a house of this style any type of finish can be used with successful results.

Inside this house there are three large, well ventilated bedrooms. These rooms are all located in the back of the house in order to insure the utmost possible privacy and quiet. Each room also features good closet space.

In keeping with one of the latest — and very popular — trends in home planning — the kitchen is located in the front of the house. The large breakfast nook is located in the front of the kitchen where three windows provide an abundance of light to give added pleasantness to this area.

Cupboards, cabinets and counters are conveniently placed in the kitchen. There is ample room for your refrigerator and stove—yet everything is within easy reach in this modern, step-saving kitchen.

Opening directly off the kitchen is the living room. This room arrangement makes it especially easy for the living room to double as a dining area. The further section of the living room is designated in the floor plan as a dining or music alcove. Generous window area makes this part of the room especially pleasant.

Should you prefer to use this alcove as a spot in which to keep the record player — where the family can enjoy listening to their favorite recordings — you'll find ample space in the living room for your dining room set. The alcove can also serve as a family library-reading area if such an arrangement better suits the tastes of your family.

Both the heating plant and the laundry equipment must be installed in the basement of this house. The former should be placed under the living room and the latter under the kitchen or bath.

**Blueprints Available**

Complete plans and specifications for this house and all other "Home of the Week" designs are available at moderate cost.

### Pruning Scars

House paint, which contains oils and turpentine, should not be used to paint over pruning scars on your trees and shrubs. It will kill the tender cells beneath the bark near the pruning wood. Instead, use a special asphalt pruning paint which can be purchased at any garden supply store.

### Leaves Damage Metal

When dead leaves become moist, they produce tannic acid. Acid is not good for metal and home owners should make it a point to keep dead leaves away from all metal objects about the house.

### And They Get Around

There isn't anything to the play of today's hand. South has 13 of the surest tricks ever seen. the only problem is in bidding the grand slam.

When the hand was actually played in a recent team match, one team stopped at only six spades. The South player found out that his partner had only one ace, and he was afraid that it would be the ace of hearts instead of the ace of spades. Failure to bid the grand slam cost this player 750 points.

Was there actually any good reason for this player's caution? There shouldn't be if the two partners are good bidders and trust each other. The secret lies in the use of the Blackwood Convention after a cue bid in the enemy's suit.

If South jumped to four no-trump at his second turn, he would be asking only this simple question: "Partner, how many aces do you hold?" North would respond five diamonds, showing only one ace, and South would have a problem.

When South took the trouble to make a cue bid in hearts, the enemy's suit, and then made the Blackwood bid of four no-trump, his question was very different: "Partner, how many aces do you hold outside of hearts?" If North had only the ace of hearts, he would have to respond five clubs, showing no ace. The actual response of five diamonds showed one ace — outside of hearts.

Knowledge of this convention made it easy for the successful team to bid the grand slam. It was clear that North had the ace of spades and a sound opening bid. There was bound to be a fine play for the grand slam.

## Moore-Marciano Bout In New York Sept. 20

New York, July 2 (AP)—It should be an old fashioned 4th of July for Archie Moore with sky rockets, Roman candles, cannon crackers and pin wheels to celebrate the end of a mission—a heavyweight title shot.

The 38-year-old ring gypsy, who changes home towns with the seasons, finally has caught up with heavyweight champion Rocky Marciano. They will meet in a 15-round match, Tuesday Sept. 20 at New York's Yankee Stadium.

**MILLION** dollar gate talk is in the air. Jim Norris, president of the International Boxing Club, estimates a $750,000 house with another $250,000 from theatre network television. There will be no home television, but a radio broacast probably will be worked out. Both managers, Al Weill of Marciano and Charlie Johnston of Moore, believe the fight will draw "a million or more."

At $40 tops, the fight should bring both Marciano and Moore their richest purses. Rocky's biggest score was his $200,568 share of the gate for his first match with Ezzard Charles last summer. Moore's highest money mark was his $81,668 June 22 for his knockout of middleweight champ Bobo Olson. Marciano gets 40 per cent and Moore 20 per cent of this gate and the same share of theater-TV, radio and the movies.

**IN CASE** Moore upsets Marciano, already the 13 to 5 favorite, there will be a rematch in 90 or 120 days (probably February) at a 30-30 percentage split.

Marciano, fresh from a six-week vacation since he stopped Britain's Don Cockell in nine rounds at San Francisco, May 16, showed up for the ceremonies. Moore was represented by Johnston and a three-foot photograph that Norris held aloft for the cameramen. Johnston said Archie was in Toledo getting ready to take off for San Diego.

Rocky said he weighed about 195 and would start training at Grossinger, N. Y. in the last week of July. Moore's camp isn't set but it probobly will be either Atlantic City or Asbury Park, N. J., starting Aug. 1.

## Pirates Meet Trailway Braves In Inaugural

### Formal Opening Ceremonies Delayed

The Hiltebrant Pirates and Adirondack Trailway Braves meet in the National Little League opener Tuesday, July 5, at 6:15 p. m. at Kingman Park.

League director James DeCicco said there would be no ceremonies connected with the opener.

The formal opening ceremonies will be held when work is completed at Kingman Park. A combination of circumstances have contrived to delay construction of the new stadium.

The 1955 makeup of the league will be the same as in 1954 with the Island Dock Tigers and Miron Lumber Indians completing the field.

John Ray Mayone is in charge of the rebuilding operations and reports steady progress after a series of unavoidable delays.

Playing rosters and team officials will be announced Tuesday.

The New York Yankees have signed Billy Short, sensational Newburgh Academy southpaw, to a Triple A contract. Don't be surprised if the two belting Bobs of Kingston High—Bob Maines and Bob Shelightner—are the next to follow.

**Short, son of Al Short, the one-time backcourt ace of the pre-war Spinnys basketball team of Port Ewen, was given $4,000 bonus. Although his contract was with Denver, young Short will report to the Bristol, Va. club of the Class A Appalachian League.**

**The young southpaw developed under the watchful eye of his father and NFA baseball coach, George Balancoff. The Yankees beat Detroit to Short, who also had been scouted by the Dodgers and Red Sox.**

**Meanwhile, the Cincinnati Reds are reported interested in Maines and Shelightner.**

### • Flotsam and Jetsam:

Automation is catching up with area bowling alleys. Dutchess Recreation has announced a $100,000 rebuilding program and the installation of the AMF automatic pinspotter, the latest thing in the bowling world. Middletown Recreation also expects the automatic spotters for next season. Big as life in the foyer of the DeWitt Clinton Hotel in Albany during our trip to the American Newspaper Guild convention was John McLellan, the former bowling star and commentator who left Kingston a few years ago. McLellan is now associated with a paper cup and package concern and travels most of the country by plane. . . . Heywood Alan Broun, Jr., son of the late great newspaper columnist, was a smash hit before the ANG delegates in Albany. A former baseball writer for the defunct PM, Broun now gets steady work on TV shows and is a summer resident of Woodstock.

### • Of Men and Mice:

**After 25 years in this business, there are three things about junior baseball that still sadden us: 1. Watching a Little Leaguer beg for a base on balls. 2. Anytime there is a pinch hitter for a small fry batter. 3. The absence of hustle in some small fry players going on and off the field between innings. If the umpires and team managers and coaches can't correct that situation we suggest vitamin shots for the kiddies. . . . The Giants seem to be doing okay everywhere except at the Polo Grounds. Two Giant squads are leading area Little Leagues. But the Dodgers captured first half honors in the Glasco Little League. East Kingston's new LL diamond shaping up for the formal opening ceremonies in the near future. Saugerties Whiz Kids were locked inside the gates of Sing Sing prison recently. But just long enough to drop a 4-3 squeaker to the prison baseball team.**

Kingston Power Boat Association's annual regatta (July 10) shaping up as the finest event in years. The large number of local entries because of the switch to stock outboards expected to increase fan interest. And, incidentally, produce inflation in the collection basket where it is badly needed. Advice to Fathers Department from Bob Feller: Every Little League coach or parent should be interested in the way the Indians' immortal strikeout sultan is handling the baseball future of his 9-year-old son. "I tell him to eat, sleep and live baseball," Feller says. "Stevie is an infielder, but I work with him on throwing. The main thing for him to learn is control. Get the ball where you want it—and get it there with a smooth motion. That's the big thing. I don't want him throwing with a herky-jerky motion." Another baseball era is launched tonight at Dietz Stadium. Another post-war version of the fabled Colonial trademark . . . this time the newly formed New York-New Jersey Semi- Pro League. Hope you'll be there.

## Colonials Pick Bruce Bechtold

### Poughkeepsie Visits Stadium For NY-NJ Opener

The Colonials have named Bruce Bechtold, Lehigh University freshman pitching star, to start against Poughkeepsie in the New York-New Jersey Semi-Pro League opener tonight at Dietz Stadium.

Game time is 8 o'clock, with Alderman-at-Large Joe Kelly throwing out the first ball to officially launch the new season.

**THE POUGHKEEPSIE** pitching choice has not been named, but the Colonials expect the Bridge City manager, John "Whitey" Tulacz to bid for a second win over the locals.

Tulacz came out of retirement to beat the Colonials, 6-3, in the first meeting of the teams last week in Poughkeepsie. He used a variety of junk stuff to limit the Colonials to seven hits.

Manager Fred Davi said he would have a new outfielder in the person of Jim Wilson, of New Haven. Wilson has had minor league experience and is rated a good hitter.

**THE REMAINDER.** of the Colonial lineup will be the same. Big Bob Shelightner returns to the catching slot after missing the Poughkeepsie game.

Clinton Gary, University of Connecticut southpaw, will be available for relief duty if Bechtold falters.

Three games are carded in the league Sunday. The New York Mohawks play Newburgh at 2 p. m. then travel to Poughkeepsie for an arclighter at 8 o'clock. Paterson Uncle Sams are at the Brooklyn Windsors at Dexter Park at 2 p. m.

The probable lineups:

| Kingston | Poughkeepsie |
|---|---|
| Apps, ss | Anderson, lf |
| Jones, 2b | Bertolette, cf |
| Carlino, 3b | Rance, 1b |
| McMann, 1b | McKenna, 3b |
| Wilson, rf | Bates, ss |
| Misasi, lf | Versace, 2b |
| Ashdown, cf | Oakley, rf |
| Shelightner, c | Brown, c |
| Bechtold, p | Tulacz, p |

**LOOK WHAT I GOT**—Henry "Hank" Cragan, one time baseball star of the area, displays a hefty walleyed pike he snagged in the lower basin of the Ashokan Reservoir. It was 31 inches long, with an 18-inch girth and weighed 9½ pounds. It succumbed to fly rod and worms.

## Field Day Plans Set by 50 Club

Officials of the 50 Club expect a record turnout for the annual children's field day Sunday, July 3, at 1 p. m. at the Block Park baseball field.

In case of rain, the program will be staged Monday.

The annual field events will be for children from 5 years through 16, for boys and girls. All young folks in the city are invited.

## Freligh Quits City League

Jim Freligh, of Saugerties, has resigned as secretary-scorekeeper of the City Baseball League, he told the Freeman sports department today.

Freligh gave as his reason "disagreement on policy" with league officials.

The Saugerties resident, a former pitching star in the area, said his resignation from the City League left him without a baseball connection. He was manager of the Saugerties BB club before resigning to accept the City League post.

## Trump Hanover Featured in Trot At Goshen Track

Trump Hanover, who recorded the fastest three-year-old trotting mile of the year at Vernon Downs this week, will make his next start in the Historic Dickerson Three-Year-Old Trot at Historic Track in Goshen Wednesday, July 6. Grand Circuit racing begins at the Orange county oval Monday, July 4. Post time is 2 p. m.

The bay colt by His Excellency, driven by Harry Pownall of the Arden Homestead Stables, trotted the mile in 2:02.2 at Vernon Downs to better his previous record of 2:03.2 which he set earlier this season.

**POWNALL,** who won the event in 1950 and '52 with Star's Pride, may be able to record his third triumph, but he will be competing with Scott Frost, winter book favorite for the Hambletonian.

A select field in the Titan Free-for-All Trot, scheduled for next week, face rigid competition in Prince Victor, heads-on favorite.

## Crocker Widens National Lead

Wichita, Kan., July 2 (AP) — Fay Crocker started the final 36 holes in the $7,500 Women's National Open golf tournament with a healthy 8 stroke advantage over her closest rival today.

Miss Crocker, of Montevideo, Uruguay, who has been playing tournaments in this country dating back to the 1939 National Women's Amateur, brought her 36-hole total to 146 with a par 72 on the Wichita Country Club course yesterday.

Mary Lena Faulk of Thomasville, Ga., figured the swift winds for her second successive 77 and a 154 total that left her within striking distance of the $2,000 first place money.

A couple of game competitors from Honolulu, Mrs. Jackie Pung and amateur Jackie Yates, each reached the half way point at 155.

## THE SCOREBOARD

R H E
4 3 1

(By ED WILKS, The Associated Press)

Considering that Cleveland is seven games behind in the American League race right now, where do you suppose they'd be without Early Wynn?

With the Tribe's once fearsome Big Four of the pitching staff incapable of chilling anyone these days, the 35-year-old Wynn has become the big guy. He responded to the call again last night, gaining his 11th victory with a 1-0 whitewash of the waning White Sox.

**WYNN WON** it big. It was his third straight shutout and he allowed just six hits, fanning four and walking only one. Larry Doby supplied the run with a fifth-inning homer off Billy Pierce, who went all the way for his fifth defeat.

The victory brought Cleveland to within a half game of the second place Sox, who now have lost six straight. And it gave the Indians a big jump with six crucial games remaining between the two clubs in the next nine days that could make or break either of the contenders.

What's more, Wynn granted another day of rest for Bob Lemon, nursing a leg injury. With the victory tucked away, Manager Al Lopez can take a chance with rookie Herb Score (7-5) today.

**LEMON,** not nearly as effective as in past years, has slipped from the No. 1 spot to No. 2 behind Wynn on the staff. He's won 10, but he's been knocked off six times. The other two members of the old Big Four—Bob Feller and Mike Garcia—have only a 6-12 joint record.

To take up the slack, Wynn now has hurled 29 consecutive scoreless innings and by socking the Sox has beaten every team in the league including a big 3-0 mark against the first place New York Yankees. The righthander, with 10 complete games and a 2.23 earned run average, has lost only twice, both times to Boston.

**WITH CHIGACO** beaten again, the Yanks moved to their largest lead of the year, 6½ games, by beating Washington 7-2. Boston beat Baltimore 4-1 in 13 innings and Kansas City upset fourth place Detroit by sweeping a twi-nighter, 3-2 and 7-5.

In the National, Pittsburgh edged first place Brooklyn, 3-2; Chicago regained second place by beating St. Louis 11-7; Milwaukee lost to Cincinnati 14-2; Philadelphia beat New York 9-3.

**WHITEY FORD** made the 10-victory mark for the Yanks, coasting in after a four-run fourth. Bill Skowron drove in four runs and Andy Carey belted a two-run homer as New York made it 11 triumphs in their last 12 games. Seventh place Washington now has lost 20 of the last 23.

Vern Law, pitching his first complete game of the season, checked the Brooklyns. He gave seven hits and three times worked out of jams after getting his lead on Dick Groat's two-run single in the sixth. Johnny Podres was the loser.

Robin Roberts won his 11th while Johnny Antonelli, a 21-game winner for the Giants last season, lost his 10th. A five-run eighth inning by the Phils put it beyond reach.

## Blue Jays Beat Elmira Pioneers For 6th Straight

(By The Associated Press)

Schenectady's Blue Jays are making a powerful bid in the scramble for top spot in the Eastern League race.

Hitting double figures for the third straight night, the Blue Jays drubbed the seventh place Elmira Pioneers 12-4 at Schenectady. It was the Jays' sixth straight victory.

Three victories in the Jays' series were a sweep of the league-leading Williamsport Grays, who topped the cellar-riding Abany Senators 10-8 last night at Williamsport.

**ALLENTOWN'S** Red Birds spoiled the debut of the Johnstown Johnnies with a 5-4 decision.

The Binghamton Triplets and the Reading Indians split a doubleheader. The Triplets won the first 5-3 in the eighth inning on John Blanchard's 16th home run. The Indians handed Binghamton an 8-5 setback in the second game.

Red Robbins highlighted the Blue Jays 10-hit attack against four Elmira pitchers with his 15th homer. Third baseman Pat Simmons contributed three singles.

Righthander Don Erickson was the winner. He was relieved by Don Dardwell in the sixth.

The relief hurling of Ronnie Sheetz and a grand slam homer by Bill Mazeroski helped Williamsport down the stubborn Senators.

But just long enough to drop a 4-3 squeaker to the prison baseball team.**

Kingston Power Boat Association's annual regatta (July 10) shaping up as the finest event in years. The large number of local entries because of the switch to stock outboards expected to increase fan interest. And, incidentally, produce inflation in the collection basket where it is badly needed. Advice to Fathers Department from Bob Feller: Every Little League coach or parent should be interested in the way the Indians' immortal strikeout sultan is handling the baseball future of his 9-year-old son. "I tell him to eat, sleep and live baseball," Feller says. "Stevie is an infielder, but I work with him on throwing. The main thing for him to learn is control. Get the ball where you want it—and get it there with a smooth motion. That's the big thing. I don't want him throwing with a herky-jerky motion." Another baseball era is launched tonight at Dietz Stadium. Another post-war version of the fabled Colonial trademark . . . this time the newly formed New York-New Jersey Semi- Pro League. Hope you'll be there.

## Colonials Pick Bruce Bechtold

### Poughkeepsie Visits Stadium For NY-NJ Opener

The Colonials have named Bruce Bechtold, Lehigh University freshman pitching star, to start against Poughkeepsie in the New York-New Jersey Semi-Pro League opener tonight at Dietz Stadium.

Game time is 8 o'clock, with Alderman-at-Large Joe Kelly throwing out the first ball to officially launch the new season.

**THE POUGHKEEPSIE** pitching choice has not been named, but the Colonials expect the Bridge City manager, John "Whitey" Tulacz to bid for a second win over the locals.

Tulacz came out of retirement to beat the Colonials, 6-3, in the first meeting of the teams last week in Poughkeepsie. He used a variety of junk stuff to limit the Colonials to seven hits.

Manager Fred Davi said he would have a new outfielder in the person of Jim Wilson, of New Haven. Wilson has had minor league experience and is rated a good hitter.

**THE REMAINDER.** of the Colonial lineup will be the same. Big Bob Shelightner returns to the catching slot after missing the Poughkeepsie game.

Clinton Gary, University of Connecticut southpaw, will be available for relief duty if Bechtold falters.

Three games are carded in the league Sunday. The New York Mohawks play Newburgh at 2 p. m. then travel to Poughkeepsie for an arclighter at 8 o'clock. Paterson Uncle Sams are at the Brooklyn Windsors at Dexter Park at 2 p. m.

The probable lineups:

| Kingston | Poughkeepsie |
|---|---|
| Apps, ss | Anderson, lf |
| Jones, 2b | Bertolette, cf |
| Carlino, 3b | Rance, 1b |
| McMann, 1b | McKenna, 3b |

### Fights Last Night

By The Associated Press

New Orleans—Joe Dorsey, 176, New Orleans, knocked out Ted Donald, 203, New Orleans, 2.

**LOOK WHAT I GOT**—Henry "Hank" Cragan, one time baseball star of the area, displays a hefty walleyed pike he snagged in the lower basin of the Ashokan Reservoir. It was 31 inches long, with an 18-inch girth and weighed 9½ pounds. It succumbed to fly rod and worms.

### Trump Hanover Featured in Trot At Goshen Track

Trump Hanover, who recorded the fastest three-year-old trotting mile of the year at Vernon Downs this week, will make his next start in the Historic Dickerson Three-Year-Old Trot at Historic Track in Goshen Wednesday, July 6. Grand Circuit racing begins at the Orange county oval Monday, July 4. Post time is 2 p. m.

The bay colt by His Excellency, driven by Harry Pownall of the Arden Homestead Stables, trotted the mile in 2:02.2 at Vernon Downs to better his previous record of 2:03.2 which he set earlier this season.

**POWNALL**, who won the event in 1950 and '52 with Star's Pride, may be able to record his third triumph, but he will be competing with Scott Frost, winter book favorite for the Hambletonian.

A select field in the Titan Free-for-All Trot, scheduled for next week, face rigid competition in Prince Victor, heads-on favorite.

### Field Day Plans Set by 50 Club

Officials of the 50 Club expect a record turnout for the annual children's field day Sunday, July 3, at 1 p. m. at the Block Park baseball field.

In case of rain, the program will be staged Monday.

The annual field events will be for children from 5 years through 16, for boys and girls. All young folks in the city are invited.

### Freligh Quits City League

Jim Freligh, of Saugerties, has resigned as secretary-scorekeeper of the City Baseball League, he told the Freeman sports department today.

Freligh gave as his reason "disagreement on policy" with league officials.

The Saugerties resident, a former pitching star in the area, said his resignation from the City League left him without a baseball connection. He was manager of the Saugerties BB club before resigning to accept the City League post.

### Crocker Widens National Lead

Wichita, Kan., July 2 (AP) — Fay Crocker started the final 36 holes in the $7,500 Women's National Open golf tournament with a healthy 8 stroke advantage over her closest rival today.

Miss Crocker, of Montevideo, Uruguay, who has been playing tournaments in this country dating back to the 1939 National Women's Amateur, brought her 36-hole total to 146 with a par 72 on the Wichita Country Club course yesterday.

Mary Lena Faulk of Thomasville, Ga., figured the swift winds for her second successive 77 and a 154 total that left her within striking distance of the $2,000 first place money.

A couple of game competitors from Honolulu, Mrs. Jackie Pung and amateur Jackie Yates, each reached the half way point at 155.

## THE SCOREBOARD

R H E
3 1 0

(By ED WILKS, The Associated Press)

Considering that Cleveland is seven games behind in the American League race right now, where do you suppose they'd be without Early Wynn?

With the Tribe's once fearsome Big Four of the pitching staff incapable of chilling anyone these days, the 35-year-old Wynn has become the big guy. He responded to the call again last night, gaining his 11th victory with a 1-0 whitewash of the waning White Sox.

**WYNN WON** it big. It was his third straight shutout and he allowed just six hits, fanning four and walking only one. Larry Doby supplied the run with a fifth-inning homer off Billy Pierce, who went all the way for his fifth defeat.

The victory brought Cleveland to within a half game of the second place Sox, who now have lost six straight. And it gave the Indians a big jump with six crucial games remaining between the two clubs in the next nine days that could make or break either of the contenders.

What's more, Wynn granted another day of rest for Bob Lemon, nursing a leg injury. With the victory tucked away, Manager Al Lopez can take a chance with rookie Herb Score (7-5) today.

**LEMON**, not nearly as effective as in past years, has slipped from the No. 1 spot to No. 2 behind Wynn on the staff. He's won 10, but he's been knocked off six times. The other two members of the old Big Four—Bob Feller and Mike Garcia—have only a 6-12 joint record.

To take up the slack, Wynn now has hurled 29 consecutive scoreless innings and by socking the Sox has beaten every team in the league including a big 3-0 mark against the first place New York Yankees. The righthander, with 10 complete games and a 2.23 earned run average, has lost only twice, both times to Boston.

**WITH CHIGACO** beaten again, the Yanks moved to their largest lead of the year, 6½ games, by beating Washington 7-2. Boston beat Baltimore 4-1 in 13 innings and Kansas City upset fourth place Detroit by sweeping a twi-nighter, 3-2 and 7-5.

In the National, Pittsburgh edged first place Brooklyn, 3-2; Chicago regained second place by beating St. Louis 11-7; Milwaukee lost to Cincinnati 14-2; Philadelphia beat New York 9-3.

**WHITEY FORD** made the 10-victory mark for the Yanks, coasting in after a four-run fourth. Bill Skowron drove in four runs and Andy Carey belted a two-run homer as New York made it 11 triumphs in their last 12 games. Seventh place Washington now has lost 20 of the last 23.

Vern Law, pitching his first complete game of the season, checked the Brooklyns. He gave seven hits and three times worked out of jams after getting his lead on Dick Groat's two-run single in the sixth. Johnny Podres was the loser.

Robin Roberts won his 11th while Johnny Antonelli, a 21-game winner for the Giants last season, lost his 10th. A five-run eighth inning by the Phils put it beyond reach.

## Blue Jays Beat Elmira Pioneers For 6th Straight

(By The Associated Press)

Schenectady's Blue Jays are making a powerful bid in the scramble for top spot in the Eastern League race.

Hitting double figures for the third straight night, the Blue Jays drubbed the seventh place Elmira Pioneers 12-4 at Schenectady. It was the Jays' sixth straight victory.

Three victories in the Jays' series were a sweep of the league-leading Williamsport Grays, who topped the cellar-riding Abany Senators 10-8 last night at Williamsport.

**ALLENTOWN'S** Red Birds spoiled the debut of the Johnstown Johnnies with a 5-4 decision.

The Binghamton Triplets and the Reading Indians split a doubleheader. The Triplets won the first 5-3 in the eighth inning on John Blanchard's 16th home run. The Indians handed Binghamton an 8-5 setback in the second game.

Red Robbins highlighted the Blue Jays 10-hit attack against four Elmira pitchers with his 15th homer. Third baseman Pat Simmons contributed three singles.

Righthander Don Erickson was the winner. He was relieved by Don Dardwell in the sixth.

The relief hurling of Ronnie Sheetz and a grand slam homer by Bill Mazeroski helped Williamsport down the stubborn Senators.

# PRIMER FOR AMERICANS

COPYRIGHT 1955, SIGURD S. LARMON

**You live in the United States of America. You are an American.**

Real Americans like their country. They are proud of it. They think it is a good place to live. And they want to keep it good—to keep it getting better and better all the time.

Why is America the way it is? What makes it a good place to live? The answer is simply this:

Throughout our history most Americans have believed that every person has certain *rights* and *duties* and *responsibilities*.

Americans have believed that there are certain things that people *should do*, and other things they *should not do*.

They have also believed in certain things that people *are*, and *are not*.

These things that people believe are called *principles*. This book is an attempt to state the Principles of America in simple, primer fashion so that you can understand them, learn them, and remember them.

This is important. It was because earlier Americans believed in these principles and guided their lives by them, that America has grown to be the good place it is.

If all of us learn and remember these principles—if we also guide our lives by them—then we can help to keep America growing better, and better, and better.

And if we follow these Principles of America, we can help make the world a better place to live in, too.

*The Principles of America are these . . .*

## 1. Each Person is of Importance and Value as an Individual.

This is the cornerstone . . . the foundation of all our other beliefs in a person's right to live his own life, to speak for himself, to choose and change his leaders.

From it comes our hatred of those "isms" under which the individual has no value or importance *as a person*, but is only one of many unimportant people who have to live the way their leaders tell them to.

Coming directly from that first principle are two other principles that are also part of the foundation of Americanism.

## 2. We Believe that All Men should Enjoy Personal Freedom.

## 3. We Believe that All Men are Created Equal.

It is worth noting that the Declaration of Independence expressed the belief that "all men are *created equal*." It did not state or imply a belief that men *develop* equally or have equal *ability*, or that they should ever be forced to an exact equality of thought, speech or material possessions.

That would be equality without *freedom*. Americans have always believed the two should go together.

From the days of the Declaration of Independence and the writing of the Constitution, Americans have known that even though Life, Liberty, and other unalienable rights are *granted* to man by his Creator, they require some protection by man himself.

So, in our Constitution, and in other laws of our land, there are set down principles to protect the rights and freedoms and equality of individuals. And these principles play an important part in *keeping* America a good place in which to live.

## 4. The Right to Freedom of Speech.

This includes freedom of the press, of radio, of motion pictures, of every means by which man may express his thoughts on any subject.

## 5. The Right to Freedom of Assembly.

As we believe in the right of individual action, so we believe that individuals should be free to act together for the benefit of all. This IS Democracy.

## 6. The Right to Freedom of Worship.

Not only is the individual free to worship as he will, but religions themselves are free and equal . . . regardless of their size or their beliefs.

## 7. The Right to Security of Person and Property.

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

## 8. The Right to Equal Protection before the Law.

As individuals are equally important, so laws must apply equally to all, without special privileges for any particular individuals or groups.

## 9. The Right to Freedom from Slavery.

This includes "the right to quit," for no individual may be *forced* to work for another.

## 10. The Right to Petition the Government.

The legally guaranteed right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

## 11. The Right to Vote for people of your choice.

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

*The Principles of America hold that every man has . . .*

## 12. The Right to a Good Education.

## 13. The Right to Live where he pleases.

## 14. The Right to Work where he wants to.

## 15. The Right to Join and Belong to an Organization.

## 16. The Right to Own Property.

## 17. The Right to Start his Own Business.

## 18. The Right to Manage his Own Affairs.

## 19. The Right to Make a Profit or to Fail, depending on his Own Ability.

There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles . . .

## 20. Every Man is entitled to Freedom and Equality of Opportunity.

## 21. Every Man may Earn his Living When, Where, and How he wants to.

*There are also Limiting Principles . . .*

Principles of individual *freedom* sometimes clash with those of individual *equality*. Therefore our rights as individuals must be limited, and those limitations are themselves *principles*.

## 22. The Rights of any Individual shall not Interfere with the Equal Rights of Other Individuals

Your right to swing your arms stops where the other fellow's nose starts.

## 23. The Rights of any Individual shall not Interfere with the Welfare of the People as a Whole.

Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

## 24. Every Individual owes Obedience to the Laws under which he Lives.

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

*Principles that are Patterns of Behavior . . .*

Many of our principles of individual freedom and equality are guaranteed to us by law.

But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. They have stood the test of time. They have worked. They have become a basic part of the way we live and of the way we look at things.

These principles, too, are foundations of Americanism. They are as true, if not more true, today than they were in 1850 or in 1750.

If America stays free, they will still hold true in 2050.

## 25. Every Man shall be Judged by his Own Record.

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

## 26. Every Man is Free to Achieve as much as he can.

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

## 27. To Achieve anything, a Man should be Willing to Work.

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work and to work hard.

## 28. Achievement also Depends upon the Ability to do a Good Job.

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

## 29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

## 30. Security is the Ability of a Man to Provide for himself.

The only true security for any individual is the opportunity, the ability, *and the determination* to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

## 31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

Printed as a Public Service by

The Kingston Daily Freeman

## 32. Every Individual must Deal Fairly with other Individuals.

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

## 33. Fair and Free Competition is a Good Thing.

Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.

## 34. Cooperation among Individuals is Vitally Important.

PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

*Principles of Individual Responsibility . . .*

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. Therefore, if we wish to remain free, we must faithfully fulfill our responsibilities as free men.

## 35. The Individual is Responsible for himself and his Family.

He must protect them and provide for their present and future well-being.

## 36. The Individual has Responsibilities to the Groups of which he is a Part.

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

## 37. The Individual has Responsibilities to his Country

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

## 38. The Individual has Responsibilities to the World.

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

### For America's Future

Most of us are still confident of ourselves and of our country. We do not claim perfection. But we have faith in our ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life . . .

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

## 39. The only way we can Have More is to Produce More; and

## 40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.

If we, the people of the United States, want to have a better life, spiritually as well as materially . . .

## 41. We must stand firmly for our Beliefs, our Rights, our Principles.

WALT WHITMAN, writing nearly 100 years ago, put it this way:

"There is no week, nor day, nor hour when tyranny may not enter upon this country if the people lose their supreme confidence in themselves . . ."

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea . . .

*Is it With or Against the Principles of America?*

*Primer for Americans* was conceived and developed by Sigurd S. Larmon, President of Young & Rubicam, Inc., and his associate, Thomas W. Lapham. Copies in illustrated booklet form may be obtained from Primer Dept., Young & Rubicam, Inc., 285 Madison Avenue, New York 17, N. Y. Price, 10c per copy, postpaid.

As we believe in the right of individual action, so we believe that individuals should be free to act together for the benefit of all. This IS Democracy.

**6. The Right to Freedom of Worship.**

Not only is the individual free to worship as he will, but religions themselves are free and equal . . . regardless of their size or their beliefs.

**7. The Right to Security of Person and Property.**

Not just one, but three Amendments to the Constitution (4th, 5th and 14th) protect against illegal search and seizure, or loss of life, liberty, or property, without "due process of law."

**8. The Right to Equal Protection before the Law.**

As individuals are equally important, so laws must apply equally to all, without special privileges for any particular individuals or groups.

**9. The Right to Freedom from Slavery.**

This includes "the right to quit," for no individual may be *forced* to work for another.

**10. The Right to Petition the Government.**

The legally guaranteed right of the individual to "petition the government for redress of grievances" is evidence of the American belief that government is the servant, not the master, of the people.

**11. The Right to Vote for people of your choice.**

This is the individual's most potent weapon in the protection of his rights and freedoms . . . a weapon that to be effective must be constantly and wisely used.

*The Principles of America hold that every man has . . .*

**12. The Right to a Good Education.**

**13. The Right to Live where he pleases.**

**14. The Right to Work where he wants to.**

**15. The Right to Join and Belong to an Organization.**

**16. The Right to Own Property.**

**17. The Right to Start his Own Business.**

**18. The Right to Manage his Own Affairs.**

**19. The Right to Make a Profit or to Fail, depending on his Own Ability.**

There are other, similar rights of individual action which are Principles of America, but all of these individual rights may be combined in these two broad principles . . .

**20. Every Man is entitled to Freedom and Equality of Opportunity.**

**21. Every Man may Earn his Living When, Where, and How he wants to.**

*There are also Limiting Principles . . .*

Principles of individual *freedom* sometimes clash with those of individual *equality*. Therefore our rights as individuals must be limited, and those limitations are themselves *principles*.

**22. The Rights of any Individual shall not Interfere with the Equal Rights of Other Individuals**

Your right to swing your arms stops where the other fellow's nose starts.

**23. The Rights of any Individual shall not Interfere with the Welfare of the People as a Whole.**

Freedom of speech does not give the individual the right to shout "fire" in a crowded theatre.

**24. Every Individual owes Obedience to the Laws under which he Lives.**

The individual has the right to talk against a law, to work and vote to change that law, but NOT to disobey that law.

*Principles that are Patterns of Behavior . . .*

Many of our principles of individual freedom and equality are guaranteed to us by law.

But we have other beliefs, other general rules of action and conduct that have grown to the status of principles. They have stood the test of time. They have worked. They have become a basic part of the way we live and of the way we look at things.

These principles, too, are foundations of Americanism. They are as true, if not more true, today than they were in 1850 or in 1750.

If America stays free, they will still hold true in 2050.

**25. Every Man shall be Judged by his Own Record.**

A man's family background, his race or his religion, is not as important as what that man himself can do, for Americans believe a man must stand on his own feet.

**26. Every Man is Free to Achieve as much as he can.**

We believe that where any boy may become President, where any man may achieve greatness, there is the greatest incentive for every man to do his best.

**27. To Achieve anything, a Man should be Willing to Work.**

Americans have always known that "you don't get something for nothing," that to get anything takes a willingness to work and to work hard.

**28. Achievement also Depends upon the Ability to do a Good Job.**

Add to "willingness to work" the ability to produce results and the combination is the basis for most individual achievement in our country.

**29. Every Man has the Right to a Fair Share of the Results of his Work and his Ability.**

Because of this belief, America has not only produced more goods, but they have been more fairly and more widely shared by more people than in any other country.

**30. Security is the Ability of a Man to Provide for himself.**

The only true security for any individual is the opportunity, the ability, *and the determination* to work and plan and save for his own present and future. Self-reliance is vital to individual independence and personal freedom. No man can be "proud and free" who depends on others for his security.

**31. When an Individual cannot Provide his own Security, the Responsibility should be Assumed by Others.**

We believe that no one should starve, or be without adequate clothing and shelter, so those who have more than their basic needs share the responsibility of providing the essentials of security for those who need help.

**Printed as a Public Service by**

**The Kingston Daily Freeman**

**32. Every Individual must Deal Fairly with other Individuals.**

Honesty, fairness, and personal integrity are virtues that help free and independent individuals get along with each other without losing their independence.

**33. Fair and Free Competition is a Good Thing.**

Americans have always believed that competition among individuals or groups encourages greater effort which in turn brings greater benefits to all.

**34. Cooperation among Individuals is Vitally Important.**

PRESIDENT EISENHOWER has said: "The freedom to compete vigorously accompanied by a readiness to cooperate wholeheartedly for the performance of community and national functions, together make our system the most productive on earth."

*Principles of Individual Responsibility . . .*

Freedom for individuals carries with it an equal responsibility to use that freedom wisely. Therefore, if we wish to remain free, we must faithfully fulfill our responsibilities as free men.

**35. The Individual is Responsible for himself and his Family.**

He must protect them and provide for their present and future well-being.

**36. The Individual has Responsibilities to the Groups of which he is a Part.**

He must give of his best to his community, his church, his employer, his union, and to every group in which individuals cooperate for their mutual benefit.

**37. The Individual has Responsibilities to his Country**

He must be an active citizen, interesting himself in local, state, and national government, voting wisely, thinking and speaking and acting to preserve and strengthen freedom, equality and opportunity for every individual.

**38. The Individual has Responsibilities to the World.**

Man's horizons have expanded. What happens in the world affects him, and his actions can affect the world. Today, therefore, each man has a responsibility to act—and to encourage his country to act—so that freedom and cooperation will be encouraged among the people and the nations of the world.

**For America's Future**

Most of us are still confident of ourselves and of our country. We do not claim perfection. But we have faith in our ability to move forward, to improve, to grow, to provide more and more individuals with more and more of everything they want and need in life . . .

If we, the people of the United States, want to have more material benefits, we must believe in and follow these two principles:

**39. The only way we can Have More is to Produce More; and**

**40. As we Produce More, we must make it possible for More and More People to Enjoy that which we Produce.**

If we, the people of the United States, want to have a better life, spiritually as well as materially . . .

**41. We must stand firmly for our Beliefs, our Rights, our Principles.**

WALT WHITMAN, writing nearly 100 years ago, put it this way:

"There is no week, nor day, nor hour when tyranny may not enter upon this country if the people lose their supreme confidence in themselves . . ."

There are those who would chip away our confidence so that their special brand of tyranny might creep into America. They must not succeed. So, let us ask of every plan, or act, or idea . . .

*Is it With or Against the Principles of America?*

*Primer for Americans* was conceived and developed by Sigurd S. Larmon, President of Young & Rubicam, Inc., and his associate, Thomas W. Lapham. Copies in illustrated booklet form may be obtained from Primer Dept., Young & Rubicam, Inc., 285 Madison Avenue, New York 17, N. Y. Price, 10c per copy, postpaid.

# Boy Suffers Leg Fracture as Car, Bicycle Collide

Louis R. Perry, 30, of 252 East Union street, owner and operator of a 1951 sedan, reported to police he was involved in a collision with a bicycle driven by Wayne Barker, 8, of 32 Third avenue, at 11:17 a. m., Friday, in front of the Delaware Avenue Tavern, 583 Delaware avenue.

**POLICE SAID** Perry was traveling west on Delaware avenue, and the boy, traveling east, went around on the outside of a truck, which was double parked when the bicycle collided with the Perry car, and struck the left rear fender.

Barker was injured about the right leg, police reported, and taken to the Kingston Hospital for X-rays. A hospital report this morning said he suffered a fracture of the leg. His condition was reported as "very comfortable."

## Large Classes Start YMCA Swim Program

The girls' learn to swim program at the YMCA had 59 make application for the Wednesday classes that started at 9:15 a. m., with four groups being organized as announced by William Irland, swimming instructor.

A new group of girls was organized Friday starting at 9:15 a. m., with classes taking place every hour. Also there are still a few openings in the Wednesday morning groups. These classes are for girls between the ages of 7 to 13 years of age.

The afternoon swim for older girls who know how to swim, will start every Wednesday and Friday at 1:30. On Wednesday there were 18 girls registered. There is still room for more, according to the "Y" swimming instructor.

* * *

The boys recreation and swimming groups were started under the direction of Frank Rebello, the new youth director, on Tuesday morning. Boys or parents wanting to know more about this program should contact the YMCA and get the necessary information. These boy groups meet every Tuesday, Thursday and Saturday morning with special group work in the same afternoons.

## Veteran Actress Dies On Coast Stage

Los Angeles, July 2 (AP)—Veteran Broadway actress Isabel Bonner died last night in the midst of a scene on the stage of the Carthay Circle Theatre.

The curtain was rung down immediately. The audience at the theatre where she was playing the female lead in "The Shrike" didn't know what had happened until stage manager Henry Staudigl told them she was dead.

Miss Bonner was 47. Staudigl said he believed a heart attack caused her death. A post mortem examination to determine the cause will be made today, the coroner's office said.

She was playing a hospital scene with male lead Dane Clark in the first act when she suddenly fell forward on the bed where Clark was supposed to be a patient.

## Retired Teachers' Workshop July 10-22

A workshop for retired teachers will be held at the State University Teachers College, New Paltz, from July 10-22, it was announced this week by Dr. John H. Jacobson, director of the Summer session. Robert R. Decormier, president of the New York State Retired Teachers Association, is director of the workshop.

"This is an innovation in education," said Mr. Decormier. "We hope to provide retired teachers with a vacation at a nominal cost and also provide them with some profitable experiences to enable them to return to their homes and be of service in their communities," he explained. Mr. Decormier said another purpose of the workshop is to give retired teachers the opportunity to again live and associate with young people.

Workshop enrollment is limited to 30 resident members and 30 non-resident members, so Mr. Decormier advises all interested retired teachers to send in their reservation requests to him at New Paltz as soon as possible. A wing of the new dormitory at the New Paltz State University Teachers College has been reserved for resident members of the workshop.

## Mother Kills Self In Second Attempt

New York, July 2 (AP)—A mother of two, thwarted in one attempt to leap from a tall office building, killed herself on a second try a short time later.

Mrs. Doris Blake, 35, of Wantagh, N. Y., broke away from building employes who yesterday pulled her back from the 31st floor ledge of a financial district skyscraper. "I've got an appointment," she told them and ran from the building.

Three blocks away she rode to the 55th floor of another building and plunged from a window to a 32nd floor setback.

Police identified the woman, a blonde in a blue summer dress, from a driver's license in her pocketbook. Neighbors in Wantagh on Long Island reported she is the wife of a bank employe, has two children and recently suffered a nervous breakdown.

SURROGATE'S COURT, COUNTY OF ULSTER—In the Matter of the Application of FRANK CHASE, as Administrator of the goods, chattels and credits of EDWARD C. CHASE, Deceased, for an Order to sell the real property of the said decedent.

Pursuant to an order of sale duly granted in the above entitled matter and entered in the Ulster County Surrogate's Office on the 8th day of June, 1955, I, FRANK CHASE, administrator of the goods, chattels and credits which were of EDWARD C. CHASE, deceased, or my duly authorized representative, will sell at public auction at the front door of the County Court House in the City of Kingston, Ulster County, New York, on the 12th day of July, 1955, at 10:30 o'clock A. M. (D.S.T.) the real property of said decedent, which is more particularly described as follows:

ALL THAT TRACT, PIECE OR PARCEL OF LAND situate in the Town of Hurley, County of Ulster and State of New York, more particularly bounded and described as follows, to wit:

COMMENCING at a point on the southerly side of the Southern Boulevard of the City of New York around the Ashokan Reservoir where the same is intersected by the westerly side of the Vinegar Hill road; and running thence in a westerly direction along the southerly bounds of the New York City Boulevard 110 feet to a stone wall; thence running in a southerly direction 167 feet along said stone wall to a point along three elm trees; thence running in an easterly direction 166 feet to a point in the lands of Herman Foster which point is 177 feet distant from a hard maple tree on the southwesterly bounds of the Vinegar Hill road and which said point aforesaid is about 1 foot distant from a hickory tree; thence running in a northerly direction along the bounds of said Herman Foster 177 feet to a hard maple tree in the bounds of the Vinegar Hill road; thence northwesterly along the westerly bounds of the Vinegar Hill road 63 feet to the point or place of beginning.

Being the same premises described in a deed from William H. Ten Eyck to Edward Chase dated April 2, 1940 and recorded in the Ulster County Clerk's Office in Book of Deeds No. 613 at page 383 on October 23, 1940.

Dated at Kingston, N. Y., June 8th, 1955.

FRANK CHASE
Administrator

## Boy Suffers Leg Fracture as Car, Bicycle Collide

Louis R. Perry, 30, of 252 East Union street, owner and operator of a 1951 sedan, reported to police he was involved in a collision with a bicycle driven by Wayne Barker, 8, of 32 Third avenue, at 11:17 a. m., Friday, in front of the Delaware Avenue Tavern, 583 Delaware avenue.

**POLICE SAID** Perry was traveling west on Delaware avenue, and the boy, traveling east, went around on the outside of a truck, which was double parked when the bicycle collided with the Perry car, and struck the left rear fender.

Barker was injured about the right leg, police reported, and taken to the Kingston Hospital for X-rays. A hospital report this morning said he suffered a fracture of the leg. His condition was reported as "very comfortable."

## Large Classes Start YMCA Swim Program

The girls' learn to swim program at the YMCA had 59 make application for the Wednesday classes that started at 9:15 a. m., with four groups being organized as announced by William Irland, swimming instructor.

A new group of girls was organized Friday starting at 9:15 a. m., with classes taking place every hour. Also there are still a few openings in the Wednesday morning groups. These classes are for girls between the ages of 7 to 13 years of age.

The afternoon swim for older girls who know how to swim, will start every Wednesday and Friday at 1:30. On Wednesday there were 18 girls registered. There is still room for more, according to the "Y" swimming instructor.

* * *

The boys recreation and swimming groups were started under the direction of Frank Rebello, the new youth director, on Tuesday morning. Boys or parents wanting to know more about this program should contact the YMCA and get the necessary information. These boy groups meet every Tuesday, Thursday and Saturday morning with special group work in the same afternoons.

## Veteran Actress Dies On Coast Stage

Los Angeles, July 2 (AP)—Veteran Broadway actress Isabel Bonner died last night in the midst of a scene on the stage of the Carthay Circle Theatre.

The curtain was rung down immediately. The audience at the theatre where she was playing the female lead in "The Shrike" didn't know what had happened until stage manager Henry Staudigl told them she was dead.

Miss Bonner was 47. Staudigl said he believed a heart attack caused her death. A post mortem examination to determine the cause will be made today, the coroner's office said.

She was playing a hospital scene with male lead Dane Clark in the first act when she suddenly fell forward on the bed where Clark was supposed to be a patient.

## Retired Teachers' Workshop July 10-22

A workshop for retired teachers will be held at the State University Teachers College, New Paltz, from July 10-22, it was announced this week by Dr. John H. Jacobson, director of the Summer session. Robert R. Decormier, president of the New York State Retired Teachers Association, is director of the workshop.

"This is an innovation in education," said Mr. Decormier. "We hope to provide retired teachers with a vacation at a nominal cost and also provide them with some profitable experiences to enable them to return to their homes and be of service in their communities," he explained. Mr. Decormier said another purpose of the workshop is to give retired teachers the opportunity to again live and associate with young people.

Workshop enrollment is limited to 30 resident members and 30 non-resident members, so Mr. Decormier advises all interested retired teachers to send in their reservation requests to him at New Paltz as soon as possible. A wing of the new dormitory at the New Paltz State University Teachers College has been reserved for resident members of the workshop.

## Three Transports Due

San Francisco, July 2 (AP)—Three transports are due here from the Orient in the next nine days but the military sea transportation service had no word today as to how many military men were aboard. The Gen. D. E. Aultman is due Tuesday from Yokohama, the Fred C. Ainsworth Thursday from Guam, and the Gen. Edwin D. Patrick Sunday, July 10, from Yokohama.

## Mother Kills Self In Second Attempt

New York, July 2 (AP)—A mother of two, thwarted in one attempt to leap from a tall office building, killed herself on a second try a short time later.

Mrs. Doris Blake, 35, of Wantagh, N. Y., broke away from building employes who yesterday pulled her back from the 31st floor ledge of a financial district skyscraper. "I've got an appointment," she told them and ran from the building.

Three blocks away she rode to the 55th floor of another building and plunged from a window to a 32nd floor setback.

Police identified the woman, a blonde in a blue summer dress, from a driver's license in her pocketbook. Neighbors in Wantagh on Long Island reported she is the wife of a bank employe, has two children and recently suffered a nervous breakdown.

## The Weather

**SATURDAY, JULY 2, 1955**

Sun rises at 4:24 a. m.; sun sets at 7:36 p. m., EST.

Weather: Fair

**The Temperature**

The lowest temperature recorded on The Freeman thermometer during the night was 66 degrees. The highest figure recorded up to noon today was 89 degrees.

**Weather Forecast**

**NEW YORK CITY** and vicinity—Mostly fair, hot and humid Saturday and Sunday but with scattered late afternoon or evening thundersqualls likely. High both days 85 to 90 along the shore and in the 90s inland. Fair, warm and humid Saturday night, low 70 to 75.

**EASTERN** New York—Hot and humid today through Sunday with scattered hundershowers both days, mainly in the

afternoons and evenings. High temperature today in the upper 80s to lower 90s. Low temperature tonight 65 to 74.

## Higher Temperatures Predicted for East

Washington, July 2 (AP)—The Weather Bureau said yesterday the western United States may expect cooler than usual weather in July, with more rainfall than normal.

The east can expect temperatures higher than usual, with comparatively dry weather in a broad zone running southwestward from the Middle Atlantic States into Alabama and Mississippi.

The bureau in its 30 day outlook said it expects: "Temperatures to average above seasonal normals over the eastern half of the nation except for near to below normal in the southeast and along the gulf coasts. Greatest departures are anticipated over the northeastern quarter of the country. Below normal temperatures are predicted in the northern plains and west of the Continental Divide with greatest departures in the intermountain area. In unspecified areas near normal temperatures are expected.

"Precipitation is predicted to exceed normal over most of the western half of the country and also in the upper Mississippi valley and in the extreme southeast. Subnormal amounts are indicated in a broad zone extending from the Middle Atlantic States southwestward to northern Alabama and Mississippi. Elsewhere near normal amounts are predicted."

Thawing of frozen food can be hastened by placing the wrapped food in front of a fan.

## State Cotiette Heads Appointed

Saugerties, July 2 — Mrs. Hazel Drewes and Miss Hannah Lewis of Saugerties, both members of the Bob Cat Cootiette Club 556 of Kingston, received appointments in the Grand New York State Department of the Cootiettes at the convention held last week at Saratoga Springs.

Mrs. Drewes was appointed assistant Grand Conductress of the Department of New York and also Grand Official Club inspector. In this capacity she will inspect all clubs in Sullivan and Orange counties.

Miss Lewis was appointed Grand New York State VAVS Alternate for the Veterans Hospital at Castle Point. The new VAVS Department representative is Mrs. Gertrude Hustin from the Newburgh Club.

Other Cootiette members attending the State Department Grand from Kingston were Past President Judy Lane and Mrs. Lena Roach, hospital chairman.

### Added Coincident

Moundridge, Kas. (AP) — Herman Krehbiel and Sylvanus Stucky, cousins, always thought it was quite a coincidence that they were born the same day. Then both turned up at the hospital for similar operations—both for the second time, the same week and by the same doctor.

## Slays Wife, Self

Shreveport, La., July 2 (AP)—A 43-year-old Shreveport man who "wanted to prove he had guts" shot and killed his wife last night and committed suicide in a a drive-in theatre. Coroner Dr. Charles S. Boone of Caddo parish (county) identified the couple as Guy Thomas Penny and his 37-year-old wife Evelyn. Dr. Boone termed the shooting a murder-suicide. An unsigned note found in Penny's shirt pocket said that "everyone I worked with talked about me not having enough guts . . . so who has more than this?"
